As the present project has acquired this final form, I thank “Almighty God”, for having finally made this humble effort a reality. His blessings, generosity and immortal presence energized and encouraged me at every downfall and thus my ventures have ended in success. The writing of Ph.D. thesis is a real formidable and taxing task. This period of doing Ph.D. was a life turning experience for me. I was able to work and write my Ph.D. thesis because of support of my parents, no lesser than god. Words are not adequate to express my gratitude and thanks to my Mother Kinneryben Bardoliwala who loved and supported me in her best possible way despite of difficult situations. Apart from being great cook and good human, she has always taught me to respect everyone and keep my morals high. My father, Mr. Rajesh Bardoliwala, a noble man, doesn’t say much or express, but I always know, shares the same affection as of mom and believes in me. Even in his busy schedule, he makes sure to spare time for me on every Tuesday morning and evening during his regular up-down. He always carries extra baggage just for me and my colleagues so that we can eat home cooked food. My sweet and innocent little sister, Pooja and my brother-in-law parthkumar who has always taken responsibilities of the parents so that I can study further and pursue my dreams. My beloved and supporting fiancée, Prapti, who is always by my side in times when I needed her the most and helped me in constantly inspiring and challenging me for future endeavours. She has proactively supported my thesis and publication writing by multiple rounds of review and QC. I have never seen a such responsible as well as ethical girl in my life. I found myself very lucky that I have such wonderful life partner to spend rest of my life.

It is a genuine pleasure to express my deep sense of thanks and gratitude to my mentor, Philosopher, guide or as I can say “Godfather” Late. Dr. Ambikanandan Misra. We still can’t imagine that he is not with us because his words constantly resonate in our lives. I can never thank him enough for giving

me direction. Ideology and guidance of legendary Dr. Misra will always be embossed in my life. All the critical suggestions, follow-ups, wise words, crucial decisions and other unsaid aspects of his diverse knowledge and personality is what one longs for. He is true mentor and supreme leader or a legend I can say. The words “legend never dies” best fitted on life of Prof. Misra. Love and affection received from Mrs. Sarita Misra made us feel like part of family.

Destiny brought me under the guidance of extremely kind, understanding and knowledgeable Prof. Krutika Sawant. In a very short duration of time, she guided me to completion of my Ph.D. in a highly focused way. She has reviewed and constantly guided me throughout thesis and publication writing. Working under her guidance is a rich experience and inspiration for me to remember it forever.
