 Middle right: Infant being weighed on the salter scale
 Bottom left corner: MUAC being measured

Capacity Building Workshops

All anganwadi workers of Surat city were assessed for their knowledge, attitude, practices and problems with respect to ICDS and service delivery. A series of training sessions were organized at community centers and training was imparted with an objective to strengthen their knowledge and service delivery under ICDS.

Public-Private Partnership (PPP) Implementation

A PPP model was designed and 10 AWCs were adopted by the private partners (Rotary Dist. 3060). Under this partnership as proposed, the AWCs were strengthened with respect to their infrastructure and various goodies like, educational games, uniforms, bags, utensils for induction stove, etc. were distributed by the volunteer members.

Public-Private Partnership (PPP) Implementation

Various festivals and birthdays were celebrated at the AWCs other than the four Tuesdays as per the stated guidelines of ICDs including Mamta Divas, Mangal Divas, Annaprashan Divas & Kishori Divas. These extra days were celebrated with an objective to increase community participation and regularize the attendance of children beneficiaries along with active participation of each mother enrolled.

Public-Private Partnership (PPP) Implementation

Celebration of Annaprashan Day at one of the adopted AWC.

Public-Private Partnership (PPP) Implementation

Recipe demonstrations from BALBHOG to enrolled mother beneficiaries of adopted AWCs to improve acceptability of BALBHOG

Public-Private Partnership (PPP) Implementation
