

## LIST OF ILLUSTRATION

	PAGE NO.
1 Location for Piram, Diu and Bet Shankhodar Islands	1
2 Map showing location, drainage and geomorphic features of Saurashtra [modified after Sood et al 1982]	4
3 Geological map of Gujarat	16
4 Tectonic framework of western India [after Biswas 1987]	18
5 Sedimentary facies in vertical sequence	36
6 Cumulative curves for textural interpretation of older sediments	64
7 Geomorphological map of Piram Island	71
8 Histograms : Grain size distribution	82
9 Cumulative curves for textural interpretation	83
10a Distribution of heavy minerals in coastal zones	86
10b Magnetic susceptibilities of mineral in Frantz Isodynamic magnetic separator [after Rosenblum, 1958]	88
11 Profile along the Piram Island showing distribution of sediments	91
12 Distribution of sediment types in Piram Island	96
13a Distribution and relative abundance of foraminiferal types	100
13b Histogram showing variation in percentage of foraminiferal types in Piram sediments	101
14 Sketches of foraminifera and their morphotypes	102
15 Sedimentation model - Piram Island	118
16 Geological and geomorphological map of Diu Island	129
17 Sketch for [a] spitzkarren; [b] solution basins, and [c] cockling - mass transfer features	157

18	Sketch : Coastal dunes [a] blowouts, [b] parabolic, and [c] barkhan	168
19	Histogram : grain size distribution	173
20	Cummulative curves for textural interpretation	177
21	Distribution of heavy minerals in coastal zones	186
22	Distribution of sediment types in Diu Island	192
23a	Distribution and relative abundance of foraminiferal types	196
23b	Histogram showing variation in percentage of foraminiferal types in Diu sediments	197
24	Sedimentation model	214
25	Fault patterns in Bet Shankhodhar and Bet Okha for comparison	227
26	Geological map of Bet Shankhodhar Island including stratigraphic sections of different localities	229
27	Block diagram showing [a] Flaser, [b] Wavy, and [c] Lenticular bedding types [after Reineck and Wunderlich, 1968a]	244
28	Geomorphological map of Bet Shankhodhar Island	275
29	Histograms : Grain size distribution	280
30	Cummulative curves for textural interpretation	284
31	Distribution of heavy minerals in coastal zones	291
32a	Distribution and relative abundance of foraminiferal types	299
32b	Histogram showing variation in percentage of foraminiferal types	300
33	Sketches for Neoichnology	349
34	Paleotidal range sequence - Bet Shankhodhar Island	378
35	A Comparison : Traction - saltation - suspension, sediment dispersion in three Island Zones	389
36	Distribution of heavy minerals in three Islands comparative histograms	390
37	Percentage variation in morphotypes comparative histogram for the Island Zones	392
