

LIST OF TABLES

No	Title	Page
Table 1 1	Generalized litho-stratigraphic sequence	05
Table 2 1	Proterozoic stratigraphy of the study area	15
Table 2 2	Palaeozoic and Cenozoic stratigraphy of the study area	19
Table 2 3	Quaternary stratigraphy of the eastern Thar.	25
Table 2 4	Litho-stratigraphy of Neogene - Quaternary sediments in Thar.	25
Table 3 1	Dominant landforms of the study area	66
Table 3 2	Morphostratigraphy of the Luni block	66
Table 4.1	Micromorphological classification of pedogenic carbonates in calcretes of the study area.	99
Table 4.2(A)	Micromorphology of calcrete profiles - Fine textured soils.	104
Table 4.2(B)	Micromorphology of calcrete profiles - Coarse textured soils	105
Table 4 3	Major oxide and trace element chemistry of calcrete profiles.	117
Table 4.4	Rare earth element chemistry of calcrete profiles	118
Table 4 5	Correlation matrix of major oxides.	146
Table 4 6	Correlation matrix of REE and trace elements.	146
Table 4 7	Correlation matrix of REE of calcrete profiles.	146
Table 4 8	Semi quantitative mineralogy of calcrete profiles.	132
Table 5 1	Major oxides and trace element chemistry of ferricrete profiles	172
Table 5 2 (A- J)	XRD data of ferricrete profiles.	178-181
Table 6.1	Quaternary pedostratigraphy and palaeoclimatic events	208

Table 7 1	Laboratory density specification for embankment construction.	219
Table 7 2	Material and field density specifications for embankments	219
Table 7 3	Specifications for granular base and sub-base courses.	219
Table 7 4	Specifications for material for earthen roads.	220
Table 7 5	Grading limitations for the aggregates, in cement and lime stabilization	220
Table 7 6	Specifications for physical characteristics of coarse aggregates in WBM pavements	220
Table 7 7	Gradings for coarse aggregates of WBM pavements	221
Table 7.8	Specifications for the screening of WBM pavements.	221
Table 7 9	Grading requirements of aggregates for BBM pavements.	221
Table 7 10	Grading of aggregates for BBM roads	224
Table 7 11	Index properties of calcretes and ferricretes	229
Table 7 12	Standard Proctor compaction characteristics of calcretes and ferricretes.	236
Table 7 13	Strength parameters of calcretes and ferricretes	236
Table 7 14	North Dakota bearing strength estimates	247
Table 7 15	Correlation matrix for calcretes and ferricretes unsoaked specimens	247
Table 7 16	Correlation matrix of calcretes and ferricretes soaked specimens	247
Table 7 17	Multivariate full modal regression among CBR-% fine, OMC, and max. dry density.	249
Table 7 18	Bivariate regression analyses between CBR-OMC, Max dry density and % fine	249
Table 7 19	Estimates of sub-base thickness for WBM roads by CBR method	249
