

LIST OF FIGURE

<u>FIG.NO.</u>	<u>DESCRIPTION</u>	<u>PAGE NO.</u>
I.1	Location Map	4
I.2	Administration Map of the Study Area	5
I.3	Communication Map of the Study Area	7
I.4	Field Investigation Map of Study Area	17
II.1	Geological Map of Gujarat	20
II.2	Regional Geological Setting of Study Area	22
II.4	Tectonic set-up of Cambay Basin	27
II.3	Tectonic framework of marginal basins of western India.	24
II.5	Major basement lineaments cutting Moho boundary (B-B' line)	30
II.6	Geological section a cross the Cambay basin a long A-A' line.	31
II.7	Seismotetonic map of the Study Area	33
II.8	Geological Map and section of Mahi river between Bhilod and Vadu	40
II.9	Geological map and section of Mahi river between Vasad and Rayka	41
II.10	Geological Map and section of Narmada river between Tarora and Godaveri	42
II.11	Geological Map and Section of Narmada river between Nand and Vanakpur.	43
II.12	Map showing sub-surface section lines and bore hole	45
II.13	Sub-surface Geological cross section along Ranu to Malod (NW-SE)	46
II.14	Sub-surface Geological cross section along Kadodara to Karnet (W-E)	47
II.15	Sub-surface Geological cross section along Daraput to Vankar (SE-NW).	48

(V)

II.16	Sub-surface Geological cross section along Devla to Dumad (W-S)	49
II.17	A schematic section through Narmada pleistocene	53
III.1	Physiographic map of study area	61
III.2	Topographic profiles	63
III.3	Drainage basins of Mahi, Dhadhar, and Narmada rivers in the regional geological setting	65
III.4	Longitudinal profiles of terraces and river channels of Mahi and Narmada.	69
III.5	Drainage Map of the Study Area	70
III.6	Regional Geomorphic Map	73
III.7	Geomorphological Map of Study Area	75
IV.1	Agricultural Categories Map	102
IV.2	Geological Parameters related to urban landuse planning	103
IV.3	Geomorphogenic Regions of Gujarat	107
IV.4	Landuse Map of the Study Area	109
IV.5	Soil Map of the Study Area	117
V.1	Flow diagram of Mahi and Narmada rivers	129
V.2	Schematic diagram of surface water distribution in space and time in a drainage basin.	132
V.3	Surface Water Irrigations Map of Study Area	134
V.4	Hydrogeological Map of the Gujarat and Adjacent Areas	140
V.5	Fence diagram of the Study Area	143
V.6	Depth to water level map	145
V.7	Average annual water level fluctuation	146
V.8	Water tables contours and flow direction	148

(VI)

V.9	Map showing geochemical types of ground water	150
V.10	Map of Selected locations of hydrochemistry of ground water	152
V.11	ISO-TDS contours map of study area	154
V.12	Pipers diagram showing chemical quality of ground water for study area	155
V.13	Diagram for classification of ground water for irrigation	156
VI.1	Ground water contamination map	170
VI.2	Tracks of tropical cyclones	171
VI.3	Industrial pollution in south central Gujarat	178
VI.4	Geo-environmental zoning map of study area	180
