

LIST OF TABLES

<u>TABLE NO.</u>	<u>DESCRIPTION</u>	<u>PAGE NO.</u>
II.1	Generalised stratigraphic succession of Gujarat	21
II.2	Generalised stratigraphic succession of Cambay basin	36
II.3	Quaternary stratigraphy of the study area	35
II.4	Generalised stratigraphy : Environments of depositions and tectonic events of Cambay and Narmada Basins	51
II.5	Pleistocene correlations of the Narmada with North-Western India	52
II.6	Correlation between climatic stages and sea level changes	55
III.1	River basin data of Mahi, Dhadhar and Narmada	64
III.2	Narmada channel types and their parameters	67
III.3	Classification of drainage pattern	71
III.4	Landform classification of study area	74
IV.1	Agricultural land categories in study Area	99
IV.2	Agricultural land categorisation of the study area	100
IV.3	Geomorphogenesis regions, present and potential landuse for Gujarat state	105
IV.4	Taluka wise distribution of landuse	110
IV.5	Modern classification of soils of study area	115
IV.6	Series wise soil description of the study area	119
IV.7	Mineral resources and Quaternary environments	125
V.1	Basin wise details of surface water potential	130

(VIII)

V.2	Potential V/S utilisation of the surface water resources of Mahi, Dhadhar & Narmada	133
V.3	Surface water potential of tanks in the study area	135
V.4	Water potential of ponds in the study area	138
V.5	Generalised parameters for unconfined aquifers	147
V.6	Generalised parameters for semi-confined aquifers	149
V.7	Hydrochemistry of Groundwater	151
V.8	Groundwater resource estimation for the study area	158
VI.1	Geo-environmental activities and parameters	160
VI.2	Basin characteristic and sediment load of Mahi and Narmada rivers	167
VI.3	Physico-chemical properties of saline soils	168
VI.4	Rainfall storms in Gujarat	172
VI.5	Geo-environmental zones of study area	179
VI.6	Qualitative evaluation of the Geo-environmental zones	181
