Fig-4.13	Post-monsoon 2003 Total Dissolved Solids Distribution in the Study Area.	65
Fig-4.14	Distribution of Sodium in Groundwater Samples of Study Area	66
Fig-4.15	Distribution of Calcium in Groundwater Samples of Study Area (Pre- monsoon 2002)	67
Fig-4.16	Distribution of Calcium in Groundwater Samples of Study Area (Post- monsoon 2002)	68
Fig- 4.17	Distribution of Calcium in Groundwater Samples of Study Area (Pre-monsoon 2003)	68
Fig-4.18	Distribution of Calcium in Groundwater Samples of Study Area (Post-monsoon 2003)	69
Fig- 4.19	Seasonal Levels of Magnesium Concentration Over a Period of Two years.	70
Fig-4.20	Spatial and Temporal Distribution pattern of Potassium in Groundwater of Study Area	71
Fig-4.21	Spatial and Temporal Distribution of Bicarbonates in Groundwater of Study Area	73
Fig-4.22	Spatial and Temporal Distribution Pattern of Sulphate in Groundwater of Study Area	75
Fig-4.23(a)	Iso-Sulfate contour Map of the Study Area (Post-monsoon 2002)	76
Fig-4.23(b)	Iso-Sulfate contour Map of the Study Area (Post-monsoon 2003)	76
Fig-4.24	Spatial and Temporal Distribution Pattern of Chloride in Groundwater of Study Area	78
Fig-4.25(a)	Spatial Distribution of Chloride in Groundwater of Study Area (Post-monsoon 2002)	79
Fig-4.25(b)	Spatial Distribution of Chloride in Groundwater of Study Area (Post-monsoon 2003)	79
Fig-4.26	Comparison of pre and post-monsoon Nitrate Concentration in Groundwater Samples of the Study Area.	81
Fig-4.27(a)	Spatial Distribution of Nitrate in Groundwater of the Study Area (Pre- monsoon 2003)	81
Fig-4.27(b)	Spatial Distribution of Nitrate in Groundwater of the Study (Post-monsoon 2003)	82
Fig-4.28	Comparison of Pre and Post-monsoon Fluoride Concentration in Groundwater of the Study Area.	85
Fig-4.29(a)	Iso-Fluoride Concentration Map of the Study Area (Pre-monsoon 2003)	85
Fig-4.29(b)	Iso-Fluoride Concentration Map of the Study Area (Post-monsoon 2003)	86
Fig- 4.30	Na-Cl Variation in the Pre and Post Monsoon Water Samples for the Year 2002-2002	87
Fig-4.31(a-d)	Na/Cl vs. Ec Plots for the Pre and Post Monsoon Period (2002-2003	88
Fig-4.32(a-d)	Sodium vs. Calcium variation for Pre and Post monsoon Groundwater Samples for the Year 2002-2003	89
Fig-4.33(a-d)	Plot of $(Ca + Mg)$ vs $(HCO_3 + SO4)$ showing carbonate dissolution and silicate weathering	90
Fig-4.34(a-d)	Plot of Na vs. HCO ₃ showing increased concentration of Na compared to HCO ₃ .	91
Fig-4.35(a-d)	Relation between Ca+Mg and Total Cation	92

Fig- 4.36	Relation between Na+K and Total Cation indicating Silicate Weathering.	93
Fig-4.37	Gibbs Plot for Pre-monsoon 2002	94
Fig-4.38	Gibbs Plot for Post-monsoon 2002	94
Fig-4.39	Gibbs Plot for Pre-monsoon 2003.	95
Fig-4.40	Gibbs Plot for Post-monsoon 2003.	95
Fig-4.41	Frequency Distribution Diagram of 🗆 180‰ in Groundwater	96
Fig-4.42	Relation Between δ^{18} O‰ and Chloride	99
Fig-4.43	Scatter Plot of Nitrate and Oxygen Isotope	99
Fig-4.44	Spatial Distribution Pattern of Kelley's Ratio (Pre-monsoon 2002) in Study Area.	103
Fig-4.45	Spatial Distribution Pattern of Kelley's Ratio (Post-monsoon 2002) in Study Area.	103
Fig-4.46	Spatial Distribution Pattern of Kelley's Ratio (Pre-monsoon 2003) in Study Area.	104
Fig-4.47	Spatial Distribution Pattern of Kelley's Ratio (Post-monsoon 2003) in Study Area.	104
Fig-4.48	Spatial Distribution Pattern of RSC (Pre-monsoon 2002) in the Study Area	105
Fig-4.49	Irrigation Water Classification Based on RSC for Post-monsoon 2002 samples	106
Fig-4.50	Spatial Distribution Pattern of RSC (Pre-monsoon 2003) in the Study Area	107
Fig-4.51	Spatial Distribution Pattern of RSC (Post-monsoon 2003) in Study Area	107
Fig-4.52	Spatial Distribution Pattern of Schoeller Index (Pre-monsoon 2002) in Study Area	108
Fig-4.53	Spatial Distribution Pattern of Schoeller Index (Post-monsoon 2002) in Study Area	109
Fig-4.54	Spatial Distribution Pattern of Schoeller Index (Pre-monsoon 2003) in Study Area	109
Fig-4.55	Spatial Distribution Pattern of Schoeller Index (Post-monsoon 2003) in the Study Area	110
Fig-4.56	U. S. Salinity Diagram for the Study Area (Pre-monsoon 2002)	112
Fig-4.57	U. S. Salinity Diagram for the Study Area (Post-monsoon 2002)	112
Fig-4.58	U. S. Salinity Diagram for the Study Area (Pre-monsoon 2003)	113
Fig-4.59	U. S. Salinity Diagram for the Study Area (Post-monsoon 2003)	113
Fig-4.60	Irrigation Water Classification of Pre-monsoon 2002 Groundwater Samples based on Wilcox (1955)	114
Fig-4.61	Irrigation Water Classification of Post-monsoon 2002 Groundwater Samples based on Wilcox (1955)	115
Fig-4.62	Irrigation Water Classification of Pre-monsoon 2003 Groundwater Samples based on Wilcox (1955)	115
Fig-4.63	Irrigation Water Classification of Post-monsoon 2003 Groundwater Samples based on Wilcox (1955)	116
Fig-4.64	Piper Trilinear Plots of Groundwater Samples in Study Area (Pre- monsoon 2002)	117
Fig-4.65	Piper Trilinear Diagram Plots of Groundwater Samples in Study Area(Post-monsoon 2002)	118

Fig-4.66	Piper Trilinear Plots of Groundwater Samples in Study Area (Pre- monsoon 2003)	119
Fig-4.67	Piper Trilinear Plot of Groundwater Samples in Study Area (Post- monsoon 2003)	119
Fig-4.68	Groundwater Pre-monsoon 2003 showing correlation variation of fluoride with different ions	124
Fig-4.69	Groundwater Post-monsoon 2003 showing Variation Correlation of fluoride with different ions	125
Fig-5.1	Average Annual Rainfall Distribution Pattern in The Study Area	132
Fig-5.2	Isohytel Map of Mahi-Narmada Interstream Area	132
Fig-5.3	Rainfall Hydrographs of The Study Area Based on Three Years Moving Mean	133
Fig-5.4	Return Period of Rainfall In The Study Area	134
Fig-5.5	Well Hydrographs Showing Temporal Behaviour in Coastal Plains	139
Fig-5.6	Well Hydrographs Showing Temporal Behaviour in Alluvial Plains	140
Fig- 5.7	Hydrographs Showing Temporal Behaviour in the Piedmont Zone.	141
Fig- 5.8	Well Hydrographs Showing Temporal Behaviour in Highland Zone	144
Fig-5.9	Reduced Water Level (Pre-monsoon, 2003) Map of the Study Area	145
Fig-5.10	Static Water Level Contour Map of the Study Area (Pre & post monsoon 1993)	146
Fig-5.11	Net Annual Change in Groundwater Levels (Year: 1993)	146
Fig-5.12	Static Water Level Contour Map of the Study Area (Pre & post monsoon 2003)	147
Fig-5.13	Net Annual Change in Groundwater levels (Year: 2003)	147
Fig-5.14	Correlation between rainfall and change in water level	148
