

LIST OF TABLES

Table 1.1	Rainfall Input in India (CGWB, 1995)	1
Table 1.2	Population Status and Land use Pattern in the Study Area	12
Table 2.1	The Stratigraphy of Mainland Gujarat	19
Table 2.2	Dimensional Characteristic of Rivers Flowing in the Study Area	32
Table 3.1	Geomorphic Classification of the Mahi-Narmada Interstream Area	38
Table 3.2	Hydrogeomorphological Features of the Coastal Tract of the Study Area	39
Table 3.3	Hydrogeomorphological Features of the Central Tract of the Study Area	41
Table 3.4	Hydrogeomorphological Features of the Eastern Pedimont zone	43
Table 3.5	Hydrogeomorphological Features of the Eastern Highland	44
Table 3.6	Detail about Aquifer System in the Study Area	50
Table 3.7	Aquifer Parameters of the Study Area	50
Table 4.1	Detail of the Groundwater Sample Collected for Geochemical Analysis	52
Table 4.2	The Statistical Analysis for Temperature Distribution in Groundwater's of the Study Area	55
Table 4.3	Statistical Analysis for Range of pH Distribution Pattern in Study Area	56
Table 4.4	Statistical Analysis for Electric Conductivity Distribution Pattern in Study Area	57
Table 4.5	Classification of Groundwater Based on Hardness	58
Table 4.6	Sawyer and Mc Carty Classification of Water Hardness in the Study Area	60
Table 4.7	Statistical Values for Sodium Concentration in Groundwater of the Study Area.	66
Table 4.8	Statistical Values for Calcium Concentration in Groundwater of the Study Area	69
Table 4.9	Statistical Analysis for Magnesium Concentration (mg/l) in Groundwater of the Study Area	71
Table 4.10	Statistical Values for Potassium Concentration (mg/l) Groundwater in the Study Area	72
Table 4.11	Statistical Analysis for Alkalinity Concentration in Groundwater of Study Area	74
Table 4.12	Statistical Analysis for Sulphate Concentration in Groundwater of Study Area	75
Table 4.13	Statistical Analysis for Chloride Concentration in Groundwater of Study Area	78
Table 4.14	Statistical Analysis for Fluoride Distribution in Study Area	84
Table 4.15	Results of $\delta^{18}\text{O}\text{‰}$ from Selected Wells within the Study Area	97
Table 4.16	Comparison of Groundwater Samples from Study Area with Drinking Water Quality Standards	101
Table 4.17	Classification of Degree of Risk of Using Groundwater for Irrigation (Richards, 1954)	111

Table 4.18	Details of Groundwater samples belonging to different Class of U.S. Salinity Diagram in Mahi-Narmada inter-stream area	114
Table 4.19	Genetic Classification of Groundwater Samples based of Piper Trilinear Diagram	120
Table 4.20	Dissolved Concentration of Trace Element in the Study Area.	121
Table 4.21	Correlation Matrix for Water Quality Parameters (Pre-monsoon 2002) (N=52)	126
Table 4.22	Correlation matrix for Water Quality Parameters (Post-monsoon 2002) (N=145)	127
Table 4.23	Correlation Matrix for Water Quality Parameters (Pre-monsoon 2003) (N=101)	128
Table 4.24	Correlation Matrix for Trace Element with Other Ions in the Groundwater (Post-monsoon 2003) (N=101)	129
Table 5.1	Calculation of Return Period	134
Table 5.2	List of Major and Minor Irrigation Tank in the Study Area.	136
Table 5.3	Groundwater Behaviour in Study Area	145
Table 5.4	Average Annual Recharge to Groundwater Based on Water Table Fluctuation/Specific Yield Approach	156
Table 5.5	Comparison of Groundwater recharge in the Study Area by Various Approaches	157
Table 6.1	Assigned Weightage to Various Lithologies and Structures in Study Area	164
Table 6.2	Assigned Weightage to Various Hydrogeomorphic Attributes in Study Area	166
Table 6.3	Assigned Weightage for Slope in Study Area	168
Table 6.4	Assigned Weightage Value for Drainage Density	170
Table 6.5	Assigned Weightage Value for Land Use	171
Table 6.6	Assigned Weightage Value for Soil	173
Table-6.7	Showing the Percentage Influence on Layer Attributes	176
Table 6.8	Potential Groundwater Recharge Area	178
