
LIST OF ANNEXURE

Annexure 1. Elemental concentration in the sediment core RH raised from Rohisa	225
Annexure 2. Al ₂ O ₃ normalised major and trace elements for the active mudflat sediment core from Rohisa (RH)	227
Annexure 3. Inorganic and organic carbon concentration and TOC/TN for the sediment core RH retrieved from Rohisa active mudflat	229
Annexure 4. Elemental concentration for the sediment core raised from partially active mudflat of Diu (DV).	230
Annexure 5. Al ₂ O ₃ normalised trace and major elements for the sediment core DV from Diu partially active mudflat	232
Annexure 6. Inorganic and organic carbon concentration and TOC/TN for the sediment core DV of Diu partially active mudflat	234
Annexure 7. Trace and major elemental concentration for the relict mudflat section of Vaso village (VV)	235
Annexure 8. Al ₂ O ₃ normalised trace and major elements for the relict mudflat section of Vaso village (VV)	236
Annexure 9. Inorganic carbon, organic carbon and TOC/TN for the relict mudflat section of Vaso village (VV)	237
