

List of Tables

2.1	Estimation of physical values based on observational data.	58
3.1	Bounds for p_0	70
3.2	Permissible values of K and p_0	71
3.3	Estimation of physical values based on observational data for $p_0 = 1.08$	73
3.4	Estimated physical values based on the observational data	83
4.1	The upper limits of α for different permissible values of K	102
4.2	For a fixed value 0.05 of α from the above Table 4.1, the lower and upper limits of p_0 for different permissible values of K	103
4.3	Estimated physical values based on the observational data with $\alpha = 0.05$ fixed.	104
4.4	The upper limits of α for different permissible values of K	117
4.5	Estimated physical values based on the observational data	117
5.1	Bounds of α for various physical conditions throughout the region $0 \leq r \leq a$	151
6.1	The compactness $u = \frac{M}{a}$ of different stars are shown in the following table.	162
