LIST OF TABLES

TABLE NO.		PAGE NO.
1	Mean JIM Scores in Various Studies ...	58
2	Distribution of the Present Sample According to Standard ...	144
3	Distribution of the Present Sample According to Management ...	144
4	Distribution of the Present Sample According to Medium ...	144
5	Distribution of the Present Sample According to Type of Schools ...	145
6	Distribution of the Present Sample According to Sex ...	145
7	High, Average and Low Groups of Different Variables ...	149
8	Means and SDs of All Variables in Each Class ...	152(A)
9	Mean and SDs of the Components of Classroom Climate ...	154
10	Mean Scores of the Components of Classroom Climate of Present Study Compared to Puri's Study ...	155
11	Mean and SDs of Pupils' Motivation ...	155
12	Mean Scores of Pupils' Motivation of Various Studies and Present Study ...	156
13	Means and SDs of the Components of Pupils' Motivation ...	157
14	Mean Scores of the Components of Pupils' Motivation of Choksi's Study Compared to Present Study ...	158
15	Means and SDs of Academic Achievement and Non-Academic Achievement ...	159

xi

TABLE NO.		PAGE NO.
16	Means and SDs of the Components of Socio-Economic Status	160
17	Correlations of Classroom Climate with its Components	160
18	Correlation of Pupils' Motivation (JIM) with its Components	161
19	Correlation Between Pupils' Motivation (JIM) and the Components of Classroom Climate	161
20	Correlation Between Pupils' Motivation (JIM) and the Components of Socio-Economic Status (SES)	162
21	Correlation Between Pupils' Motivation (JIM) with Academic Achievement and Non- Academic Achievement	163
22	Correlation of Academic Achievement and the Components of Classroom Climate ...	163
23	Correlation of Non-Academic Achievement with the Components of Classroom Climate	164
24	Significance of Difference Between the Mean Scores of Authenticity According to High, Average and Low Group of Legitimacy	165
25	Significance of Difference Between the Mean Scores of Authenticity According to the High, Average and Low Groups of Productivity	166
26	Significance of Difference Between the Mean Scores of Authenticity According to High, Average and Low Groups of Class- room Climate	167
27	Significance of Difference Between the Mean Scores of Authenticity According to High, Average and Low Groups of Pupils' Motivation	168

XI

TABLE NO.		PAGE NO.
28	Significance of Difference Between the Mean Scores of Authenticity According to High, Average and Low Groups of Academic Achievement	169
29	Significance of Difference Between the Mean Scores of Authenticity According to High, Average and Low Groups of Non-Academic Achievement	170
30	Significance of Difference Between the Mean Scores of Authenticity According to High, Average and Low Groups of Socio-Economic Status (SES)	171
31	Significance of Difference Between the Mean Scores of Authenticity According to the Type of Schools	172
32	Significance of Difference Between the Mean Scores of Legitimacy According to High, Average and Low Groups of Authenticity	173
33	Significance of Difference Between the Mean Scores of Legitimacy According to High, Average and Low Groups of Productivity	174
34	Significance of Difference Between the Mean Scores of Legitimacy According to the High, Average and Low Groups of Classroom Climate	175
35	Significance of Difference Between the Mean Scores of Legitimacy According to High, Average and Low Groups of Pupils' Motivation	176
36	Significance of Difference Between the Mean Scores of Legitimacy According to High, Average and Low Groups of Academic Achievement	177
37	Significance of Difference Between the Mean Scores of Legitimacy According to High, Average and Low Groups of Non-Academic Achievement	178

XII

TABLE NO.		PAGE NO.
38	Significance of Difference Between the Mean Scores of Legitimacy According to High, Average and Low Groups of Socio- Economic Status (SES)	184
39	Significance of Difference Between the Mean Scores of Legitimacy According to the High, Average and Low Groups of Type of Schools	180
40	Significance of Difference Between the Mean Scores of Productivity According to High, Average and Low Groups of Authenticity	184
41	Significance of Difference Between the Mean Scores of Productivity According to High, Average and Low Groups of Legitimacy	182
42	Significance of Difference Between the Mean Score of Productivity According to High, Average and Low Groups of Class- room Climate	183
43	Significance of Difference Between the Mean Scores of Productivity According to High, Average and Low Groups of Pupils' Motivation	184
44	Significance of Difference Between the Mean Scores of Productivity According to High, Average and Low Groups of Academic Achievement	185
45	Significance of Difference Between the Mean Scores of Productivity According to High, Average and Low Groups of Non- Academic Achievement	186
46	Significance of Difference Between the Mean Scores of Productivity According to High, Average and Low Groups of Socio- Economic Status (SES)	187
47	Significance of Difference Between the Mean Scores of Productivity According to Type of Schools	186

XIII

TABLE NO.		PAGE NO.
48	Significance of Difference Between the Mean Scores of the Classroom Climate According to High, Average and Low Groups of Authenticity	189
49	Significance of Difference Between the Mean Scores of Classroom Climate According to High, Average and Low Groups of Legitimacy	190
50	Significance of Difference Between the Mean Scores of Classroom Climate According to High, Average and Low Groups of Productivity	191
51	Significance of Difference Between the Mean Scores of Classroom Climate According to High, Average and Low Groups of Pupils' Motivation	192
52	Significance of Difference Between the Mean Scores of Classroom Climate According to High, Average and Low Groups of Academic Achievement	193
53	Significance of Difference Between the Mean Scores of Classroom Climate According to High, Average and Low Groups of Non- Academic Achievement	194
54	Significance of Difference Between the Mean Scores of Classroom Climate According to High, Average and Low Groups of Socio- Economic Status (SES)	195
55	Significance of Difference Between the Mean Scores of Classroom Climate According to Type of Schools	196
56	Significance of Difference Between the Mean Scores of Pupils' Motivation According to High, Average and Low Groups of Authenticity	197
57	Significance of Difference Between the Mean Scores of Pupils' Motivation According to High, Average and Low Groups of Legitimacy	198
