Pursuing a Ph.D. is both an enjoyable and painful experience. It's just like climbing a high peak, step by step, accompanied by bitterness, hardships, frustration, encouragement, and trust with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. This thesis is the end of my journey to obtaining my Ph.D. It will not be enough to express my gratitude in words to all those people who helped me. At the end of my research work, it is a pleasant task to express my filling to all persons who contributed in many ways to the success of this study and made it an unforgettable experience for me.

I thank the almighty God for giving me the strength and patience to work through all these years so that today I can stand proud with my head held high.

I like to start with the person who made the difference in my life and take me such a height of glory, **my mentor, Prof. M. Srinivas**, Department of Physics, The M. S. University of Baroda, Vadodara. For his valuable guidance, scholarly inputs, and consistent encouragement that I received throughout my research work. This feat was possible only because of the unconditional support provided by him. He has been there with me for the last five years. He is always motivating and inspiring me towards the new possibilities in life. I owe a lot of gratitude to him for being there for me. I feel privileged to be associated with a person like him during my life. Observations and comments by him helped me to establish the overall direction of the research and to move forward with the investigation in depth. Without his guidance and constant feedback, this Ph.D. would not have been achievable. Under his, I successfully overcame many difficulties and learned a lot. His unflinching courage and conviction will always inspire me in the future also.

It gives me great pleasure in expressing my indebtedness and a deep sense of gratitude to **Dr. K.V.R. Murthy**, Applied Physics Department, Faculty of Technology, The M. S. University of Baroda. I have immensely benefited from the

discussion with him and his critical suggestions for which I shall always be obliged to him.

I express my heartfelt gratitude to Head, **Prof. S.K. Mukherjee**, Department of Physics, The M. S. University of Baroda, Vadodara for providing necessary infrastructure and resources to accomplish my research work. I am grateful to **My Dear Teachers** of the Department of Physics for their encouragement. I am thankful to **the Non-Teaching Staff** of the Department of Physics for their support.
