

List of Table

Table 3.1	Structural parameters of $\text{Sr}_2\text{CeNbO}_6$ found by Rietveld analysis of XRD data.	54
Table 3.2	Inter-atomic distance and occupancy calculated through Rietveld refinement of experimental data.	54
Table 3.3	Summary of cell parameter, volume and crystallite size of $\text{Sr}_2\text{CeNbO}_6$.	56
Table 3.4	CIE coordinate and CCT of $\text{Sr}_2\text{CeNbO}_6$ at 254nm emission spectra.	62
Table 4.1	Structural parameters of $\text{Sr}_2\text{GdNbO}_6$ found by Rietveld analysis of XRD data.	74
Table 4.2	Inter-atomic distance and occupancy calculated through Rietveld refinement of experimental data.	75
Table 4.3	Summary of cell parameter, volume and crystallite size of Eu(III) doped $\text{Sr}_2\text{GdNbO}_6$.	79
Table 4.4	Asymmetric ratio of Eu(III) doped $\text{Sr}_2\text{GdNbO}_6$ at 254nm, 265nm and 277nm emission spectra.	83
Table 4.5	CIE 1931 coordinates and CCT of the emissions under (254nm, 262nm, and 466nm) xenon lamp excitation.	86
Table 5.1	Structural parameters of $\text{Ba}_2\text{CeNbO}_6$ found by Rietveld analysis of XRD data.	97
Table 5.2	Inter-atomic distance and occupancy calculated through Rietveld refinement of experimental data.	98
Table-5.3	Summary of cell parameter, volume and crystallite size of Eu(III) doped $\text{Ba}_2\text{CeNbO}_6$.	102
Table 5.4	Asymmetric ratio of Eu(III) doped $\text{Ba}_2\text{CeNbO}_6$ at 275nm and 466nm emission spectra.	108
Table 5.5	CIE 1931 coordinates and CCT of the emissions under (275nm and 466nm) xenon lamp excitation.	110
Table 6.1	Structural parameters of $\text{Sr}_2\text{GdTao}_6$ found by Rietveld analysis of XRD data.	123

Table 6.2	Inter-atomic distance and occupancy calculated through Rietveld refinement of experimental data.	125
Table- 6.3	Summary of cell parameter, volume, crystalline size and strain of undoped, single doped and Eu(III), Er(III) double doped Sr ₂ GdTaO ₆ .	129
Table 6.4	Asymmetric ratio of Eu(III), Er(III) double doped Sr ₂ GdTaO ₆ for excitation wavelength of 265nm and 276nm emission spectra.	138
Table 6.5	CIE 1931 coordinates and correlated color temperature of the emissions under (265nm and 276nm) xenon lamp excitation of Eu(III), Er(III) double doped Sr ₂ GdTaO ₆ phosphor.	142
