

## **ACNOWLEDGEMENTS**

I start by thanking my supervisor Prof. Dinesh Kanchan who is the rock solid support behind this entire work. His knowledge, dedication and encouragement constantly boosted my morale. He is a true guide in every sense of the word. No words will ever be enough to express my gratitude for him. I also thank Prof. Rolee Kanchan who constantly worked behind the curtain for supporting my work.

I thank my parents Dr. Pranav and Mrs. Kalpana for their love, blessings and faith in me which made this journey worth. I thank my brothers Chintan Dave without whom I would not have reached here and Shivam Vyas, Ruchik Parikh, Rohit Mokariya for supporting me in every possible way and being there for me in desperate times. I thank my family members Kripanshu, Ayushi, my father-in-law and grandmother-in-law for understanding me, supporting my work with their blessings and patience. I also thank my brother-in-law Rishabh Sharma, his amazing wife Sudipa Das and my cutest little niece Sukruti for being my pillars of strength. I would always remain indebted to my mother-in-law who was my constant source of inspiration and the driving force during my entire work.

I thank my colleagues Poonam Sharma, Manish Jayswal, Prajakta Joge, Apeksha Di, Maheshwaran, Khushbu Di and Vaishali for providing exemplary work environment, my friends Hiral Joshi, Ashwini Mahadik and Shilpa Bhavsar. I wholeheartedly thank Dr. Nakul Soni who has been a family, friend and philosopher right from the beginning of this journey. I immensely thank Dr. Deepak Kumar for providing constructive feedback during our discussions, Col. Nijhawan and Col. Sachin Kapoor for being a constant source of inspiration, my dear friends Ms. Janie Ross, Roshan Bhaiya, Nausheen Mam, cute little Ariz, Shubhra and Ankush for being there with me always and supporting my dream work.

I thank entire department of physics for providing the experimental facilities for characterizations and for their support during the entire course. I thank UGC for providing financial support for the present work under IUAC project (BTR No. 54319) and IUAC, New Delhi for providing the beam line facilities for performing irradiation experiments.

In the end, I thank the best man of my life, my dearest friend and my best half Raghav Chaturvedi, you are the sole reason behind this beautiful journey. Words will never be enough to express my affection and gratitude for you.

**GARGI DAVE**
