

Acknowledgements

I would like to express my sincere gratitude to my Ph. D. Supervisor, Prof. S. Mukherjee at Physics department, M.S. University of Baroda, Vadodara, Gujarat for his invaluable guidance and encouragement throughout my thesis work. It was a great pleasure to work under his supervision that has helped me in focusing and understanding the present research work. I warmly thank him for giving me an opportunity to visit and work at Bhabha Atomic Research Centre (BARC).

Words are insufficient to express my indebtedness to Dr. B. K. Nayak, Nuclear Physics Division, BARC, Mumbai, for his continued guidance and motivation in completing this thesis work. His kind assistance in many aspects is also acknowledged, during my stay at BARC. My visits at BARC, has been a great learning experience due to the more interactive people over there. The fruitful discussions that I have had with him gave me more insight into nuclear physics. My sincere thanks are also due to Dr. D.C. Biswas, Nuclear Physics Division, BARC, Mumbai, for his help in several aspects of my work. I would also like to thank Dr. D. C. Biswas for helping me to get some of the very important data for analysis.

I am grateful to Dr. S. Santra for his invaluable suggestions and active participation in experiments to carry out research work at FOTIA, Nuclear Physics Division, BARC, Mumbai. His continued guidance and motivation has helped me along the way in learning Fresco calculations. I warmly thank him for extending his support in analysis and theoretical calculation in the early period of my research work. I sincerely thank Drs. A. Saxena, E. T. Mirgule, and B. John for their support and guidance during this research work.

I am indebted to Dr. V. M. Datar, Head, Nuclear Physics Division, BARC, who has provided me better computer and sitting place that has fasten my research work. I am grateful to Dr. R. K. Choudhury, former head of Nuclear Physics Division, BARC, for his support and invaluable guidance to pursue this research work.

I would like to thank Prof. N. L. Singh, Head, Physics Department, M.S. University of Baroda, Vadodara, for providing me all the necessary facilities and encouragement during this research work. I also wish to thank Prof. A. C. Sharma, Dean of Faculty of Science, for his support in pursuing this work. I thank my all professors at M. S. University of Baroda, for their support and motivations in carrying out this work.

My collaborators, Dr. Y. K. Gupta, L. S. Danu, Dr. S. Mukhopadhyay, G. Prajapati are gratefully acknowledged for their help and active participation in the experimental work that has helped to improve these investigations. Special thanks due to the help from Jhanglejee, Vindjee, Inkarjee, and Lalit in carrying out experiments at BARC-TIFR Pelletron facility. I would like to thank Pratap Roy, Priyadarshini Sahoo, and Nikit Deshmukh for their help and active participation in some of the experiments.

Thanks are due to the great support from Dr. V. V. Parkar, in doing the PACE and Fresco calculations. I could learn new ideas and techniques that have improved my understanding in these calculations.

I am very thankful to Dr. S. V. Suryanarayana for his active involvement and invaluable guidance in carrying out the Fresco calculations. I was able to learn various techniques in theoretical study of the thesis work.

I also thank Dr. K. Mahata, S. Pandit, Dr. B. N. Joshi, and Dr. V. Jha for some useful Physics discussions. Thanks are due to the help from FOTIA, BARC and TIFR Pelletron staff in carrying out the experiments for the present work.

I am truly grateful to the Department of Atomic Energy and Council for Scientific and Industrial Research (HRDG-CSIR (Ack. No. 162033/2K12/1)), India for providing fellowship in carrying out this thesis work.

I would like to thank Prof. J. Lubian at Rio de Janeiro, Brazil, for discussions on some of the theoretical investigations and his guidance that has benefited me to clear my doubts in Fresco calculations.

I would never forget the encouragement from my all Professors at P. T. Science College, V.N.S.G.U, Surat.

I am thankful to my friend Indubala Yadav for her support and encouragement throughout the Ph.d work. Many discussions on research work in nuclear physics kept me motivated during this period.

I am grateful to my friends Dr. C. S. Palshetkar and Dr. P. K. Rath for their encouragement and support while pursuing this work. Our constant discussions and sharing of ideas on experimental as well as theoretical studies had been of great interest and helpful in improving my understanding. I appreciate the constant support and the explanation of Fresco input file by my friend Dr. C. S. Palshetkar. I am grateful to my sweet friend Rupali Mane for her constant support and encouragement during my research work.

I would like to thank my friends Purvi, Gaurang, Ish Mukul, Udai, Joydeep, Abhishek, Ratnesh, Dharmesh, Mamta, Ketan and Harish for their support and motivation during this work. I have also enjoyed the good company of Shree kala, Pragya, Vishal, Chetna Mangukiya, Priyadarshini, Anamika, Shraddha, Prajakta, Poonam di, Vibha, Jaymin, Gargi and Apexa.

I am indebted to my friends Saroj Bishnoi, Richa Shukla and Shobha madam from BARC for their all kind of support and encouragement during this period.

Lastly, with a deep sense of gratitude, I thank my parents Baldevbhai M. Patel and Nirmalaben B. Patel, my sister Parul Dantreliya and brother-in-law Prakash Dantreliya, and my brother Rakesh Patel for their love and patience over the years. Their faith and encouragement provided immense strength in fulfilling this work. I warmly thank my cute and loving nieces Mansi Dantreliya and Antra Dantreliya for showering their love and care. I would never forget those cheerful days with all of them.

My deepest appreciation to my uncle R. J. Patel and my aunty K. R. Patel at Baroda for their care and support during my stay at their home. He has been a great advisor to me for the last several years. I am grateful to my cousin sister

Punita Patel and my brother-in-law Sanjay Patel for their support and motivation over the years.

I thank my brother-in-law Suryakant Patel and one of my uncle Dr. Kanak Patel for their constant support and encouragement for the last few years.

I would like to thank all the staff members at M.S.U., Vadodara and NPD, BARC., for their cooperation in administrative paper work. I also thank all those people who have helped and inspired me in direct or indirect ways.
