

List of Tables

Table	Page
2.1 Summary of estimates of models	73
2.2 Summary of estimates of parametric functions and its estimate of the variance	73
2.3 Summary of estimates of pdf and survival functions	74
2.4 Summary of estimates of models	76
3.1 Values of $C^{1/k}$ for k inliers in the Block test for 1% and 5% level of significance	87
3.2 Critical values for the outward sequential procedure for up to k=2 inliers and associated values of β	92
3.3 Critical values for the outward sequential procedure for up to k=3 inliers and associated values of β	93
3.4 Critical values for the outward sequential procedure for up to k=4 inliers	94
3.5 Critical values for the outward sequential procedure for up to k=5 inliers	95
3.6 Observed value t_k and the p-value of average outward debits of NEFT data	98
3.7 Observed value t_k and the p-value of monthly rainfall of Rayagada district	99
3.8 The values of probability of power and probability of masking effect for the outward sequential test (upper), the Cochran type test (middle) and the Dixon type test (lower) at $\alpha= 1\%$ and 5% ..	103
3.9 $P_{11}^2, P_{22}^2, P_{12}^2$ and P_{21}^2 values for the outward sequential test when k=2	108

3.10	P_{11}^3, P_{22}^3 and P_{33}^3 values for the outward sequential test when $k=3$	109
3.11	P_{12}^3, P_{13}^3 and P_{23}^3 values for the outward sequential test when $k=3$	110
3.12	P_{21}^3, P_{31}^3 and P_{32}^3 values for the outward sequential test when $k=3$	111
4.1	Summary of maximum likelihood estimates of the model	126
4.2	Summary of estimates of parametric functions and its estimate of the variance	127
4.3	Summary of estimates of pdf and survival functions	127
4.4	Summary of estimates of the models	129
5.1	Summary of estimates of models	152
5.2	Summary of estimates of parametric functions and its estimate of the variances	153
5.3	Summary of estimates of pdf and Reliability functions	154
5.4	Summary of estimates of models for example in section 5.9	156
6.1	Summary of estimates of parameters when $c^* = 20\%$ and $c^* = 40\%$ (entries below)	184
6.2	Summary of estimates of parametric functions when $c^* = 20\%$ and $c^* = 40\%$ (entries below)	185
6.3	Summary of estimates of pdf for $c^* = 20\%$ and $c^* = 40\%$ (entries below)	186
6.4	Summary of estimates of parameters for model	187
6.5	Parameter estimates and goodness-of-fit criteria for distributions fitted to the breast tumor size data	188
6.6	Parameter estimates and goodness-of-fit criteria for distributions fitted to the NFHS-3 data	188
6.7	Summary of MLE estimates of parameters of breast tumor size data and NFHS-3 data	191
6.8	Summary of UMVU estimates of parameters/parametric functions of breast tumor size data and NFHS-3 data	192
6.9	Summary of estimates of parameters of breast tumor size data and NFHS-3 data	193

7.1	The parameter estimates, goodness-of-fit criteria and corresponding p-value for various datasets (Pareto distribution) .	217
7.2	Summary of estimates of parameters/parametric functions of Pareto II distribution censored at c^*	219
7.3	Summary of estimates of pdf and reliability function of the various data sets censored at c^*	220
A.1	National Electronic Fund Transfer (NEFT) January-2018	226
A.2	California earthquake insurance data	231
