

ACKNOWLEDGMENT

My studies on the Biodiversity of River Vishwamitri during 1999-2002 have necessitated endless hours of observations in the field, work in the laboratory and library. In all these activities, I have had the good fortune of receiving help, encouragement, guidance and advice from a number of kind people. I list here just a few of them, but am indebted to all those who helped me.

It is a privilege to acknowledge my deep indebtedness to my revered research guide, Prof Bonny Pilo for his guidance, encouragement, support and freedom he kindly granted me to think and execute this work.

I place on record my gratitude to Prof. A. V. Ramachandran, Head, Department of Zoology for permitting me to carry out my research work.

I am thankful to all the teaching and non-teaching staff of the Department of Zoology, who helped me at various phases in my research tenure.

I am thankful to Coordinator, UGC-DSA Programme in Zoology for extending several research facilities. I am also grateful for the financial assistance provided by Gujarat Ecology Commission, in the form of a research project 'Conservation of Rare and Endangered Biodiversity of Gujarat' granted under project leadership of Prof. Bonny Pilo.

Words fail to express my gratitude to Dr. B. Suresh, Lecturer, Department of Zoology, without whose guidance and support this work would never have been completed. Right from introducing me to this subject, to helping me in selecting sites, accompanying me on many collection trips, to the very end of thesis writing, and preparing graphs, tables and plates, he has been a constant source of help. His insistence for meticulous work and perfection has brought out the best in me.

I record my thanks to Dr. Russell Shiel, Principal Research Scientist, CSIRO Land & Water CRCFE, Murray-Darling Research Centre, Albury, Australia for his help in confirming the rotifer identification during the initial stages of this work. I am also grateful to him for sending me literature for the same. I wish to acknowledge Dr. Hendrik Segers, Laboratory of Animal Ecology, Zoogeography and Nature Conservation, University of Ghent, Gent, Belgium who also helped in confirming the identification of Lecanid rotifers.

I would like to thank Dr. Chamyal and Dr. Rachana Raj, Dept of Geology, M. S. University, for providing the geological details of River Vishwamitri.

I owe special thanks to Dr. P.K. Pradeep, Michigan School of Medical Sciences, Michigan, USA, for helping me with the difficult job of finding literature. His immense encouragement and help during the initial phase of my Ph.D is greatly appreciated.

I would like to thank Mr. Rohit Vyas, Honorary Wildlife Warden, Vadodara Circle for some of the photographs that he generously gave to me.

I am extremely grateful to Prof. G.P.Senan, Head, Department of Botany, M. S University, Dr. G Pradeepkumar, Scientist B, Botanical Survey of India, Calcutta and Ms Mona Dave, Research student, Department of Botany for helping me in identification of the vegetation

I should like to thank Prof N. Radhakrishnan, for his valuable and timely help during the tenure of this study.

I specially thank my dear friend Dharmendra Shah, ISRO, Ahmedabad for helping me not only with the map preparation but also for his support and encouragement throughout this work

All members of CREB team – Dr Manoj E., Dr Jitendra Gavali, Bimal Desai, Kalpana Thakar, Mrs Bharti Patel and D.V. Jadhav are thanked for their support and encouragement throughout the tenure of this work

I owe a lot to Dr Isha Desai and Dr. Nancy Joseph for their constructive suggestions, criticisms, motivation, care and most important of all, love, extended throughout the study period.

My dearest friend and colleague, Manju is greatly appreciated Her constant support and encouragement have seen me through some of the rough patches during this work. I am also grateful to her for her help in identification of insects and amphibians.

I would also like to take this opportunity to thank some of my friends and colleagues – Arpita, Bhawna, Bhavana, Sapna and Sonali for their encouragement, support and also for bringing light moments during this study.

My friends, Aditya and Deepak have always made me believe in myself and their faith in me has helped me gain a lot. I would like to thank both of them for their unending faith in me.

I owe a lot to my family members, each and every one of them – my dad, my mom, my sisters, Deepa and Manjusha and Manish, my brother-in-law who have always encouraged me in everything I do My most sincere and heartfelt gratitude goes to my mother-in-law and father-in-law who have stood by me with their constant help and encouragement and have given me strength and inspiration to complete this work. I would also like to thank my sister-in-law Sapna and Rajnish for their support and encouragement

Last but not the least I owe this achievement to my beloved husband Samir without whose help, and support this work would never have been completed. He has stood by me throughout the tenure of this work and has helped me in every small detail, right from sample collection to thesis typing His unending patience and love is greatly appreciated. He has been the source of my strength, my courage and my inspiration. With all my love I dedicate this thesis to him

Shilpa Dhuru
