

## ACKNOWLEDGEMENTS

---

The journey of doctoral studies has not been easy so far. It was a constant learning phase with troubleshooting the problems on field as well as academics. Research on field was not easy as we had to work according to the nature's law. Hence, the famous quote "Time and Tide waits for None" was sensibly experienced on the coastal reefs and islands during the inter-tidal hours.

I would like to pay reverence to my Advisor Prof. Geeta S Padate, Department of Zoology. I am extremely indebted to her in keeping trust on me; as Marine Biology was an entirely new subject for my research profession. As a mentor she has always supported and guided on tough roads of life. It was my first day on Narara coastal reef with her, when I asked about, I knew nothing then. Through her blessings and expectations, I could work on new stream. I appreciate her for securing project funding and recommendations for profession that helped me float through this journey. Prof. Geeta Padate is the person who motivated me from being a non-swimmer to a certified SCUBA diver. Dear Ma'am, "I hope I never let you down".

Your persistence, patience and motive to accomplish any tasks are well learned and imbibed. These things will be taken forward. The constant encouragement, positive attitude and field discussions have been truly guiding for me. I am beholden for giving open hands in conducting research independently.

I am thankful to Ministry of Earth Sciences, New Delhi for funding the project. I am also grateful to IdeaWild grants Colorado, USA for providing field instruments.

I appreciate the PCCF Gujarat Wildlife Division for permission to work in Marine National Park and Sanctuary, Jamnagar vide Ref. No. WLP/28/C/126-27/2015-16 and Gujarat Biodiversity Board for permission to study and collection of samples, letter vide Ref. No. GBB/form-1/T-3b/1630/2105-16.

My sincere thanks to Then (2015) CCF Jamnagar Mr. Shyamal Tikadar and RFO Kamlesh bhai (Dwarka).

I would like to pay my sincere thanks to Prof. Pradeep Mankodi, then Head of The Department of Zoology. You have been always motivating students. I value your suggestions, advices and constant encouragement during my Masters and PhD tenure. I truly admire your administrative skills. Your contributions in our YETI MSU Baroda 2018 will not be forgotten by me and my colleagues.

Prof. Dolly Kumar current Head of the Department of Zoology has never said "No" to any student in any tasks. I thank your Research Scholars Late Dr. Reshma and Dr. Suchi whom I accompanied in the Dangs for field research. I am also grateful to be your MSc dissertation student working on spiders.

Dr. Ranjitsinh is a role model for me days before my Masters' course (Kartik bhai is the person who introduced your persona). Your scientific approach is at zenith. Dear Sir, you will always be my admiration throughout, no matter what. The respect comes from depth of the ventricles. Of course, your free chai and you smiling on my mimicry will be missed in the late evenings.

I would like to thank Dr. Vihas Vasu, who has been beyond faculty member. Your chai and meals won't be forgotten and, Biryani of-course. Sharing research ideas and talking about science was always a great fascination.

The teaching faculty of Department of Zoology have contributed a lot in terms of their service to students. I would like to thank Prof. Kauresh, Dr. Prakash, Prof. Suresh, Prof. Pragna, Prof. Sunita, Dr. Sujatha Pillai, Dr. Deepa, Dr. Bhavna Bharucha, Dr. Anika Tere, Dr. Ayaz Rangrez, Dr. Pratyush Patankar, Dr. Pranav Buch. Special thanks to Dr. Chandni for reviewing my work.

This department would have been incomplete without the non-teaching staff. They have always kept a stand for the students and their welfare in laboratory instruments. I give my cheers to Saileshbhai, Late Sangitbhai, Urmilaben, Vijaybhai, Hemantbhai, Rajeshbhai, Hiteshbhai, Gulabbhai, Shankarbhai, Mukeshbhai, Shripadbhai, Dileepbhai, Haji bhai, Nazir bhai and Rajubhai.

I appreciate of support my seniors Dr. Deepakbhai, Dr. Swatiben, Dr. Jaimesh, Dr. Parth, Dr. Jignesh, Mr. Gunjan, Dr. Mamta, Dr. Ashutosh, Dr. Jhalak, Dr. Ankur, Dr. Jaldeep, Dr. Kedar, Dr. Shweta, Dr. Lipi and Dr. Arpita. I might forget several other names, but their contributions were enormous during whole academic tenure. Dr. Dishant Parasharya and to be Dr. Shivbhadrasinh bhai is respected for their valuable discussions.

I thank my lab mates for their tiffin dabbas Dr. Kavita and to be Drs. Apeksha, Ali, Hitarthi and Dr. Shruti. I also thank Dr Shashikant, Urja, Kashmeera, Isha and several others for spending joyous moments.

Sailing though the career was fun being with my friends Dr. Kangkan paaji (your *karo karo, khatam karo* words will vanish after my submission) and Dr. Kapil paaji who has always supported and helped me a lot during my not so good days. Dr. Jit dada, soon to be Dr. Ankit (Aamir) will be always remembered. Well I do feel lonely when you guys left the lab so early (sarcasm). I would like to thank Maitry for producing maps, also relentlessly thrust me to accomplish the tasks and motivate me during my terminal tenure. I thank Jyotirekha for wonderful cover page design.

I would like to quote to be Dr., hostel friends Sukanta dada, Akash anna, Saurabh dada who made dinner with wonderful moments and never made me feel homesick during sick days.

During my project term I would like to thank Mrs Ankita, Ketan bhai (Dwarka), Irfan bhai, Jhumma kaka, Sejal ben, Pranav bhai, Nura bhai, Javed bhai, Gopal bhai (Dwarka) and several individuals who contributed a lot to this study.

I would like to praise my guruji Ch. Satyanarayan Sir, for believing in me and my abilities and motivating me for quality research.

Dear Alexandra Elbakyan, I'd not forget your enormous research inputs and massive contributions to my research. You have always been warm in responding to my mails. I sincerely Thank You from bottom of my heart.

My science journey is incomplete with my WWF Valsad friends Ketan Prajapati, Manish Bariya, Zuber Sau, Raju Patel, Hitesh bhai, Jigar bhai, Rakesh Prajapati and Harshil Patel. I am indebted to Dasrukaka.

I pay homage to Late H.H Digvrendrasinghji and Yuvraj Jayvirendrasinhji (Royal Family of then Bansda State) for supporting researchers and wildlife biologist at Vansda National Park.

Late DFO Mr. Madhusudan Joshi (Vansda National Park) will be always remembered who polished and directed me. He made me reach horizon from being an ordinary student to one limit higher.

For giving me unforgetting experiences, I would like to dedicate my thanks to The Maharaja Sayajirao University of Baroda and the Department of Zoology. This institution has been temple of great scholars. It has given an immense opportunities and prestige to students across India as well as abroad. I thank the Gaekwad Royal Family for such contributions.

I would like to end my draft and dedicate this work to my parents Mrs Nargesh and Mr Tehmurasp Maneckjee Mirza for having faith in me and support me financially as well in my research throughout.

---Ruzbeh
