

LIST OF FIGURES

Figure 1 Map of Vadodara showing agricultral field sites	43
Figure 2 Map of vadodara showing urban community garden sites	43
Figure 3 Bajra field in Varanama.....	44
Figure 4 Brinjal field in Varanama	44
Figure 5 Fields of cotton in Channi	45
Figure 6 Cauliflower fields in Channi	45
Figure 7 Wheat field in Dabhoi	46
Figure 8 Potato field in Dabhoi.....	46
Figure 9 Fields of Castor in Waghodia	47
Figure 10 Beans field in Waghodia	47
Figure 11 Lal baug.....	48
Figure 12 Sayajirao Garden	48
Figure 13 Sardar baug.....	49
Figure 14 <i>Icerya purchasi</i> Maskell	54
Figure 15 <i>Icerya purchasi</i> Maskell	54
Figure 16 <i>Ferrisia virgata</i> Cockerell.....	55
Figure 17 <i>Ferrisia virgata</i> Cockerell.....	55
Figure 18 <i>Maconellicoccus hirsutus</i> Green	56
Figure 19 <i>Ceroplastes ceriferus</i> Fabricius	56
Figure 20 <i>Phenacoccus solenopsis</i> Tinsley	57
Figure 21 Honey dew secreted by <i>Phenacoccus solenopsis</i> Tinsley.....	57
Figure 22 Male of <i>Phenacoccus solenopsis</i> Tinsley.....	58
Figure 23 Copulating male and female of <i>Phenacoccus solenopsis</i> Tinsley.....	58
Figure 24 Egg mass of <i>Phenacoccus solenopsis</i> Tinsley.....	59
Figure 25 Volatile collectors used during adsorbent method	85
Figure 26 GC-MS at SICART for isolation of pheromone from mealybug.....	85
Figure 27 <i>Phenacoccus solenopsis</i> infesting <i>Tagetes erecta</i> (L.).....	93
Figure 28 <i>Phenacoccus solenopsis</i> infesting <i>Nerium indicum</i> (Mill.).....	93
Figure 29 <i>Phenacoccus solenopsis</i> infesting <i>Hibiscus rosa-sinensis</i> (L.)	94

Figure 30 <i>Phenacoccus solenopsis</i> infesting <i>Amaranthus</i> sp.	94
Figure 31 <i>Phenacoccus solenopsis</i> infesting <i>Lycopersicon esculentum</i> (L.).....	95
Figure 32 <i>Phenacoccus solenopsis</i> infesting <i>Abelmoschus esculentus</i> (L.)	95
Figure 33 <i>Phenacoccus solenopsis</i> infesting <i>Gossypium hirsutum</i> (L.)	96
Figure 34 <i>Phenacoccus solenopsis</i> infesting cotton boll	96
Figure 35 Symptom of <i>Phenacoccus solenopsis</i> infestation in <i>Hibiscus rosa-sinensis</i> (L.)	97
Figure 36 <i>Phenacoccus solenopsis</i> associated with <i>Monomorium pharaonis</i> (L.).....	98
Figure 37 <i>Phenacoccus solenopsis</i> associated with <i>Camponotus compressus</i> (Fab.)	98
Figure 38 <i>Phenacoccus solenopsis</i> associated with <i>Tapinoma melanocephalum</i> (Fab.)	99
Figure 39 <i>Phenacoccus solenopsis</i> carried by <i>Camponotus compressus</i> (Fab.).....	99
Figure 40 <i>Anegleis cordoni</i> (Weise)	100
Figure 41 <i>Cheilomenes sexmaculata</i> (Fab.).....	100
Figure 42 <i>Sympherobius fallax</i> (Banks).....	101
Figure 43 Larva of <i>Sympherobius fallax</i> (Banks)	101
Figure 44 <i>Scymnobiussordidus</i> (Horn)	102
Figure 45 Larvae of <i>Scymnobiussordidus</i> (Horn).....	102
Figure 46 <i>Chrysoperla zastrowi Arabica</i> (Henry)	103
Figure 47 <i>Aenasius bambawalei</i> Hayat and its cocoons.....	103
