

CONTENTS

CHAPTER		PAGE
	INTRODUCTION	1
1	Histological observations on the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	8
2	Histochemical localization of Lipids in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	40
3	Histochemical localization of Lipase and Esterase in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	57
4	Histochemical localization of Succinic dehydrogenase (SDH) in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	70
5	Histochemical localization of Glycogen and Phosphorylase in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	85
6	Histochemical localization of Acid phosphatase in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	98

CHAPTER		PAGE
7	Histochemical demonstration of Alkaline phosphatase in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	126
8	Histochemical localization of Nucleic acids in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	154
9	Histochemical localization of Cholinesterases in the normal and regenerating tail of the house lizard, <u>Hemidactylus flaviviridis</u> .	169
10	Changes in the Thyroid activity in the house lizard, <u>Hemidactylus flaviviridis</u> ; during the different phases of regeneration (tail).	180
	SUMMARY	188
	BIBLIOGRAPHY	197
