

ACKNOWLEDGEMENT

Undertaking this Ph.D. has been a truly life-changing experience for me and it would not have been possible to do without the support and guidance that I received from many people.

I would first like to extend immense gratitude to my Guide and Mentor and the then Head of the Department Prof. Pradeep C. Mankodi. It has been an honour to be his Ph.D. student. He has taught me, both consciously and unconsciously, how good research on field and in laboratory is done. I appreciate all his contributions of time, ideas, and funding to make my Ph.D. experience prolific and exciting. The joy and enthusiasm he has for his research was contagious and inspirational for me, even during the tough times in my Ph.D. pursuit. I would like to thank you for encouraging my research and for allowing me to grow as a researcher. I appreciate you for accepting me as your student, though I was half the way through with my fellowship and encouraging me to explore other possible financial aids. I am extremely grateful for your confidence in me and the freedom you gave me to work. I hope sir, I didn't let you down!!!

Your simplicity, patience, perfection, encouragement, discussions and positive attitude have always kept me motivated throughout the course of the study as well as life. Your technical advices and suggestions were of great help in solving the problems. I came to

the Department of Zoology intending to join your laboratory for two primary reasons: the areas of research in which you were involved, and what I had heard about your grand qualities. I have not been disappointed in either regard. You have provided guidance at key moments in my work while also allowing me to work independently the majority of the time.

I gratefully acknowledge the funding received towards my Ph.D. from your projects sanctioned so far. Thanks to you Sir for your encouragement and developing a magnitude towards the research.

My sincere thanks to Prof. Dolly Kumar, Head of the Department, for her constant encouragement and permission to allow me in retrieving the instruments and laboratory facilities of the department for my work.

The teaching faculty of the Department of Zoology has provided me an immense support and encouragement, so I would like to express my heartfelt thanks to Dr. Pragna Parikh, Dr. Geeta Padate, Dr. Kauresh Vachhrajani, Dr. Sunita Salunke, Dr. Balakrishnan Suresh, Dr. Ranjitsinh Devkar, Dr. Vihas Vasu, Dr. Prakash Pillai and Dr. Hetal Roy.

It would be really inappropriate if I don't express my sincere thanks and gratitude to The Maharaja Sayajirao University of Baroda, Vadodara for inculcating in me the academic and intellectual pursuits in the last 8 years.

The greatest strength comes from my family and merely being grateful to them will only demean their position in my life. They have always settled with whatever choices I have made till now and never imposed their will on me. Maa, Deuta and Puja, THANK YOU for everything. The blessings and words of wisdom primarily by my grandmother (Aaita), uncles, aunts and cousins have always motivated me in this journey.

May the Supreme Power Lord SHIVA... Guide us All in The Right Path.
