
Table of Contents

Acknowledgement	i
List of abbreviations	iv
1. Introduction	1
2. Materials and Methods	24
3. Comparative proteomic analysis of lizards' tail and limb during wound healing phase	45
4. Role of FGF and other related molecules in scarred and scar-free wound healing process	74
5. FGFs and other molecules that differentially govern the process of EMT in healing tail and limb	115
6. Summary	154
7. Bibliography	160
Annexure I- List and sequence of primers	190
Annexure II- Publications	192
Annexure III- Conference Certificate	209
