

Acknowledgments

It is indeed a feeling beyond expression to have come to the end of this roller coaster of a journey. I would like to take this opportunity to thank and express my gratitude (as far as words would allow me) towards the people who have made this endeavor possible.

My research supervisor, Dr.K. Shanmugan has been the epitome of support and motivation for me. Sir, you are not only a great researcher and teacher, but a fantastic human being too. Your words of wisdom will stay with me for the rest of my life. Your guidance will be cherished forever. I believe I have been extremely fortunate to have been your student. I hope we can continue to work together even after this.

My better half, Mrs. Anita Singh, and lovely Son, Master Vibhash Pratap Singh, has been by my side for all this while, sometimes listening to my whinings and at other times sharing my joys of completing every small step of this mammoth task. You have been pillars of strength throughout and particularly during this phase of working on my thesis.

My colleague, Dr. Ashutosh Sharma, Mr. Loknath Acharya, and Dr.Abodh Kumar, have been the guiding star. You have been a constant support, guiding me towards the best of research.

My friends, Mr. Bhagirath Baria, Ms. Reshma Chourey, and Mr. Ketan Kothadia, I cannot emphasize your importance in this journey. This work would not have been completed without your constant support, especially the administrative works.

I would like to thank my professor from Gokhale Institute, Dr. Neeraj Hatekar. Sir, your guidance has been the biggest support for this work.

In the end, I would like to thank my parents, Mr. Shatughana Singh and Mrs. Sushila Singh, for having instilled in me the great virtues

of fearlessness and giving the best to every aspect of life. Your support and love for everything that I have wanted to do with my life is something that keeps me going every day. Finally, I would like to express my heartfelt gratitude to all my friends and family who bear with me through this phase.
