

LIST OF FIGURES

Figure 1. Pithora Paintings	3
Figure 2. Overview of Undulating Terrain in JWLS	4
Figure 3. Opilion.....	9
Figure 4. Pseudoscorpion	9
Figure 5. Scorpion	10
Figure 6. Solifugae	10
Figure 7. Dorsal View of Female <i>Clubiona foliata</i>	11
Figure 8. Ventral View of Female <i>Clubiona foliata</i>	11
Figure 9. Eye Arrangement in Lycosid Spider (Arrowed in Yellow)	12
Figure 10. Male Palp of <i>Stenochilus hobsoni</i> (Arrowed in Yellow).....	12
Figure 11. Rare View of Abdomen showing Cribellum & Spinnerets (Arrowed in Green & Yellow)	13
Figure 12. Chelicera with Fangs (Arrowed in Yellow) (SEM Image).....	13
Figure 13. Map of Jambughoda Wildlife Sanctuary, Panchmahal District, Gujarat .	15
Figure 14. Natural Forest	19
Figure 15. Forest Plantation.....	19
Figure 16. Cotton Field.....	20
Figure 17. Paddy Field.....	20
Figure 18. Pigeonpea Field	21
Figure 19. Riparian Habitat.....	21
Figure 20. Pitfall Trap	29
Figure 21. Ground Hand Collection	29
Figure 22. Preservation of Spider Samples.....	30
Figure 23. Steriomicroscope	30
Figure 24. <i>Araneus mitificus</i> feeding on Dipteran	79
Figure 25. <i>Argiope aemula</i>	79
Figure 26. <i>Argiope anasuja</i>	80
Figure 27. <i>Chorizopes sp.</i>	80
Figure 28. <i>Cyclosa confragra</i> on its orb-web	81
Figure 29. <i>Cyclosa hexatuberculata</i> resting in hub	81

Figure 30. <i>Cyclosa moonduensis</i>	82
Figure 31. <i>Cyclosa spirifera</i>	82
Figure 32. <i>Cyrtophora cicatrosa</i>	83
Figure 33. <i>Cyrtophora citricola</i>	83
Figure 34. <i>Eriovixia excelsa</i>	84
Figure 35. <i>Eriovixia laglaizei</i>	84
Figure 36. <i>Eriovixia poonaensis</i>	85
Figure 37. <i>Gasteracantha kuhli</i>	85
Figure 38. <i>Gea subarmata</i>	86
Figure 39. <i>Larinia chloris</i>	86
Figure 40. <i>Lipocrea fusiformis</i>	87
Figure 41. <i>Neoscona mukerjei</i>	87
Figure 42. <i>Neoscona nautica</i>	88
Figure 43. <i>Neoscona theisi</i>	88
Figure 44. <i>Neoscona vigilans</i>	89
Figure 45. <i>Poltys bhabanii</i>	89
Figure 46. <i>Poltys columnaris</i>	90
Figure 47. <i>Poltys nagpurensis</i> feeding on Orthoptera.....	90
Figure 48. <i>Singa</i> sp.	91
Figure 49. <i>Thelacantha brevispina</i>	91
Figure 50. <i>Clubiona drassodes</i>	92
Figure 51. <i>Clubiona filicata</i>	92
Figure 52. <i>Clubiona foliata</i>	93
Figure 53. <i>Clubiona pashabhahi</i>	93
Figure 54. <i>Castianeira zetes</i>	94
Figure 55. <i>Ctenus narashinhai</i>	94
Figure 56. <i>Stegodyphus pacificus</i>	95
Figure 57. <i>Stegodyphus sarasinorum</i>	95
Figure 58. <i>Cheiracanthium inornatum</i>	96
Figure 59. <i>Cheiracanthium melanostomum</i> on is retreat	96
Figure 60. <i>Cheiracanthium triviale</i>	97

Figure 61. <i>Cheiracanthium</i> sp. 1	97
Figure 62. <i>Cheiracanthium</i> sp. 2	98
Figure 63. <i>Drassodes</i> sp.	98
Figure 64. <i>Haplodrassus</i> sp.	99
Figure 65. <i>Megamyrmaekion ashae</i>	99
Figure 66. <i>Scopoides kuljitae</i>	100
Figure 67. <i>Scopoides</i> sp.	100
Figure 68. <i>Trachyzelotes jaxartensis</i>	101
Figure 69. <i>Zelotes mandae</i>	101
Figure 70. <i>Hersilia aadi</i> feeding on Orthoptera	102
Figure 71. <i>Hersilia savignyi</i>	102
Figure 72. <i>Murricia hyderabadensis</i>	103
Figure 73. <i>Oedignatha</i> sp.	103
Figure 74. <i>Evippa</i> sp. 1	104
Figure 75. <i>Evippa</i> sp. 2.....	104
Figure 76. <i>Hippasa lycosina</i>	105
Figure 77. <i>Lycosa poonaensis</i> with spiderlings on back	105
Figure 78. <i>Lycosa</i> sp. with its eggsac	106
Figure 79. <i>Pardosa birmanica</i>	106
Figure 80. <i>Pardosa sumatrana</i>	107
Figure 81. <i>Oecobius putus</i>	107
Figure 82. <i>Brignolia</i> sp.....	108
Figure 83. <i>Unidentified Species 1</i>	108
Figure 84. <i>Hamadruas sikkimensis</i> guarding the cocoon.....	109
Figure 85. <i>Oxyopes ashae</i>	109
Figure 86. <i>Oxyopes bharatae</i> feeding on Diptera	110
Figure 87. <i>Oxyopes birmanicus</i> feeding on Diptera	110
Figure 88. <i>Oxyopes pankaji</i>	111
Figure 89. <i>Oxyopes</i> sp. 1 feeding on spider	111
Figure 90. <i>Oxyopes</i> sp. 2.....	112
Figure 91. <i>Oxyopes</i> sp. 3 feeding on Diptera	112

Figure 92. <i>Peucetia akwadaensis</i>	113
Figure 93. <i>Peucetia viridana</i>	113
Figure 94. <i>Peucetia yogeshi</i>	114
Figure 95. <i>Peucetia</i> sp. feeding on <i>Leucauge decorata</i>	114
Figure 96. <i>Unidentified Species 2</i>	115
Figure 97. <i>Tibellus elongatus</i> guarding its eggsac.....	115
Figure 98. <i>Crossopriza lyoni</i> with eggsca in chelicerae	116
Figure 99. <i>Pholcus fragillimus</i>	116
Figure 100. <i>Pholcus phalangioides</i> with eggsac in chelicerae	117
Figure 101. <i>Hygropoda mahendriensis</i>	117
Figure 102. <i>Nilus phipsoni</i>	118
Figure 103. <i>Perenethis venusta</i>	118
Figure 104. <i>Pisaura podilensis</i> guarding its eggsac.....	119
Figure 105. <i>Prodidomus</i> sp.....	119
Figure 106. <i>Epocilla</i> sp.....	120
Figure 107. <i>Harmochirus brachiatus</i>	120
Figure 108. <i>Hasarius adansoni</i>	121
Figure 109. <i>Hyllus semicupreus</i>	121
Figure 110. <i>Marpissa tigrina</i>	122
Figure 111. <i>Marpissa</i> sp.	122
Figure 112. <i>Menemerus bivittatus</i>	123
Figure 113. <i>Myrmarachne tristis</i>	123
Figure 114. <i>Myrmarachne</i> sp. 1.....	124
Figure 115. <i>Myrmarachne</i> sp. 2.....	124
Figure 116. <i>Phintella vittata</i>	125
Figure 117. <i>Plexippus paykulli</i>	125
Figure 118. <i>Plexippus petersi</i> feeding on Neuropteran	126
Figure 119. <i>Portia</i> sp.	126
Figure 120. <i>Rhene albigera</i>	127
Figure 121. <i>Stenaelurillus</i> sp.....	127
Figure 122. <i>Telamonia dimidiata</i>	128

Figure 123. <i>Thyene imperialis</i>	128
Figure 124. <i>Scytodes fusca</i>	129
Figure 125. <i>Scytodes pallida</i>	129
Figure 126. <i>Scytodes thoracica</i> guarding its eggsac	130
Figure 127. <i>Scytodes</i> sp.	130
Figure 128. <i>Loxosceles rufescens</i>	131
Figure 129. <i>Heteropoda bhaikakai</i>	131
Figure 130. <i>Heteropoda venatoria</i>	132
Figure 131. <i>Olios bhavnagarensis</i> in its retreat.....	132
Figure 132. <i>Olios gravelyi</i>	133
Figure 133. <i>Olios milleti</i>	133
Figure 134. <i>Olios wroughtoni</i>	134
Figure 135. <i>Olios</i> sp.....	134
Figure 136. <i>Stenochilus hobsoni</i>	135
Figure 137. <i>Guizygiella indica</i>	135
Figure 138. <i>Guizygiella melanocrania</i>	136
Figure 139. <i>Guizygiella shivui</i>	136
Figure 140. <i>Leucauge decorata</i>	137
Figure 141. <i>Tetragnatha extensa</i>	137
Figure 142. <i>Tetragnatha mandibulata</i>	138
Figure 143. <i>Tetragnatha maxillosa</i>	138
Figure 144. <i>Tylorida ventralis</i>	139
Figure 145. <i>Argyrodes argentatus</i>	139
Figure 146. <i>Cephalobares globiceps</i>	140
Figure 147. <i>Coleosoma blandum</i>	140
Figure 148. <i>Euryopsis</i> sp.....	141
Figure 149. <i>Latrodectus hasseltii</i>	141
Figure 150. <i>Meotipa picturata</i>	142
Figure 151. <i>Parasteatoda mundula</i> guarding its eggsac	142
Figure 152. <i>Rhomphaea projiciens</i>	143
Figure 153. <i>Steatoda</i> sp. 1	143

Figure 154. <i>Steatoda</i> sp. 2	144
Figure 155. <i>Yaginumena maculosa</i>	144
Figure 156. <i>Amyciaea forticeps</i> feeding on weaver ant	145
Figure 157. <i>Camaricus</i> sp.....	145
Figure 158. <i>Indoxysticus minutus</i>	146
Figure 159. <i>Runcinia</i> sp.	146
Figure 160. <i>Thomisus</i> sp. 1.....	147
Figure 161. <i>Thomisus</i> sp. 2 guarding its cocoon.....	147
Figure 162. <i>Thomisus</i> sp. 3 feeding on Diptera	148
Figure 163. <i>Pandava laminata</i>	148
Figure 164. <i>Miagrammopes</i> sp.	149
Figure 165. <i>Uloborus danolius</i>	149
Figure 166. <i>Uloborus krishnae</i>	150
Figure 167. <i>Uloborus</i> sp. 1	150
Figure 168. <i>Uloborus</i> sp. 2 with spiderlings in retreat.....	151
Figure 169. <i>Zosis geniculata</i> in its web.....	151
Figure 170. <i>Storena gujaratensis</i>	152
Figure 171. <i>Storena</i> sp.....	152
Figure 172. Orb-web of <i>Eriovixia poonaensis</i>	210
Figure 173. Orb-web of <i>Gea subarmata</i>	210
Figure 174. Orb-web of <i>Poltys nagpurensis</i>	211
Figure 175. Tent-web of <i>Cyrtophora citricola</i>	211
Figure 176. Retreat of <i>Araneus mitificus</i>	212
Figure 177. Sheet-web of <i>Stegodyphus sarasinorum</i>	212
Figure 178. Tube-web of <i>Stegodyphus pacificus</i>	213
Figure 179. Funnel-web of <i>Hippasa lycosina</i>	213
Figure 180. Sheet-web of Lycosid Spider.....	214
Figure 181. Tube-web of Lycosid Spider	214
Figure 182. Retreat of <i>Plexippus paykulli</i>	215
Figure 183. Single strand web of <i>Tetragnatha maxillosa</i>	215
Figure 184. Cob-web of <i>Parasteatoda mundula</i>	216

Figure 185. Tangle-web	216
Figure 186. Web of <i>Neoscona vigilans</i> showing open hub	220
Figure 187. Web of <i>Neoscona vigilans</i> showing upside down orientation of spider	220
Figure 188. Symmetrical web of <i>Neoscona vigilans</i>	221
Figure 189. Asymmetrical web of <i>Neoscona vigilans</i>	221
Figure 190. <i>Argiope anasuja</i> feeding on Coleopteran	226
Figure 191. <i>Eriovixia excelsa</i> feeding on Hymenopteran	226
Figure 192. Colonial feeding of <i>Stegodyphus sarasinorum</i> on Colepoteran	227
Figure 193. <i>Hersilia savignyi</i> feeding on Hymenopteran	227
Figure 194. <i>Telamonia dimidiata</i> feeding on Dipteran	228
Figure 195. <i>Heteropoda bhaikakai</i> feeding on Isopteran	228
Figure 196. <i>Latrodectus hasseltii</i> feeding on Coleopteran	229
Figure 197. <i>Hersilia savignyi</i> Mating Behavior	229
Figure 198. <i>Crossopriza lyoni</i> Mating Behavior	230
Figure 199. <i>Thomisus sp.</i> Mating Behavior	230
Figure 200. Uneven shaped eggsac of <i>Argiope anasuja</i>	231
Figure 201. Eggsac of <i>Cheiracanthium inornatum</i>	231
Figure 202. Falt cocoon of <i>Hersilia savignyi</i>	232
Figure 203. Bell shaped eggsac of Theridiid Spider	232
Figure 204. Star shaped eggsac of <i>Uloborus krishnae</i>	233
Figure 205. Spiderlings of <i>Telamonia dimidiate</i> its retreat	233
Figure 206. <i>Cyrtophora citricola</i> guarding its eggsac	234
Figure 207. <i>Stegodyphus sarasinorum</i> with its eggsac	234
Figure 208. <i>Hersilia savignyi</i> with its eggsac	235
Figure 209. <i>Lycosa sp.</i> with spiderlings on its back	235
Figure 210. <i>Oxyopes birmanicus</i> guarding its cocoon	236
Figure 211. <i>Pisaura podilensis</i> guarding its eggsac in Nursery web	236
Figure 212. <i>Menemerus bivittatus</i> guarding its cocoon	237
Figure 213. <i>Heteropoda bhaikakai</i> guarding its eggsac	237
Figure 214. <i>Latrodectus hasseltii</i> guarding its eggsac	238
Figure 215. <i>Rhomphaea projiciens</i> guarding its arrow shaped eggsac	238

Figure 216. <i>Hyllus semicupreus</i> feeding on Araneid spider	239
Figure 217. <i>Scytodes fusca</i> feeding on Clubionid spider.....	239
Figure 218. <i>Scytodes fusca</i> feeding on <i>Plexippus paykulli</i>	240
