

ACKNOWLEDGEMENT

The journey of my dance life began very early. At the completion of this Doctoral work, a land mark of my life, I wish to thank and pay respects to some special people who in some or other way have helped me in this journey the Marg!

My Guide cum Guru Prof.Dr.Parul Shah and my mother Smt. Smitaben Patel deserve my highest gratitude.They are both my Maa, one give me Janma and other Karma. In their spheres of work, both have encouraged, guided, trusted, pushed and pulled me to bring this level of work in the field of dance. It is a great honour and privilege to be the Ph.D. scholar of Paruldididi and I am really proud being Smitaben's daughter.

Prof Shah with her extensive experience in the dance field is able to understand and comprehend the past, the present and the future development of Bharatanatyam. She explained to me with the futuristic vision, the changing dynamics of the classical dance. As I have devoted my life to dance, I was really motivated to take this challenging topic. It has taken us long time but absolutely worth every second. She has continuously guided, motivated and supported me with her insights and extensive knowledge throughout the research work. Words are not enough to express my intense gratitude. I can only promise that I will always further the cause of dance Didi.

I feel proud and grateful to University Grant Commission, as I am recipient of their JRF (3 years) and SRF (2 years) research fellowship to conduct the Ph. D. work.

More than 100 Gurus and Artists spared their valuable time and shared their knowledge in personal interviews and through emails with me. I am extremely thankful to them. I extend my gratitude to the staff of various libraries, especially NCPA- Mumbai, Madras Music Academy- Chennai, SangeetNatak Academy -New Delhi and of course my own Faculty Library staff members who allowed me to work long hours and provided pertinent materials.

I thankful to Smt. Sandhya Bordwekar who helped in editing the script and my graphic designer Mrs. Girija and Shri Paritosh Bhadaria for their help in making the thesis correctly illustrative. I am extremely thankful to Shri Bhavin Patel for his technical and computer support.

Since my registration in 2012, I am thankful to all the Deans of the Faculty of Performing Arts, Prof Parul Shah, and present Prof. Ajay Ashtaputre, as well as the Heads of the Dance Department Prof Parul Shah, Smt Juthika Mahen and Dr. Jagdish Gangani and other staff members for their support and consideration.

It is very difficult to thank one's own family. My father Shri Jayantibhai, though not with me physically, has always blessed and guided me from wherever he is. My mother Smitaben has stood with me like a rock and brother Jaymin has entertained me during my tough hours. I will fail in my duty if I don't express my love and gratitude to them. I thank Dr. Prabuddha Patel (Baba) who supports me as my father and always motivated me towards this journey. I warmly acknowledge the support and early learning which is the basis for this development by Shri Devajibhai Parmar, Smt. Mona Nayak, Shri Thakorbbhai Patel and Smt. Elakshi Thakor.

Nikunj, my life partner has always stood with and behind me. But for his strong moral support and encouragement I could not have continued in the field of dance. I am thankful to my parents-in-laws Smt. Manjuben Darji and Shri Bhikhabhai Darji. My dear friends Radhika, Dimple, accompanied me in field work and data collection. Pramod provided administrative guidance and students Aakanksha and Wincy helped in compilation. I am really thankful to all of them.

Finally I would like to thank each and everybody who directly or indirectly was involved in the successful completion of this research work. My pranams to all Gurus, teachers, Nattuvanars, Devadasis, Kings, Patrons, scholars and artists who have kept the light of dance burning bright for centuries!
