LIST OF TABLES

Table No.	Title	Page
2.1	Levels of n-Ach. in 5 states	54
4.1	Names of the colleges under study with their sanctioned strenght of students	176
4.2	Name of the colleges from which the sample was drawn total teacher trainees	177
4.3	Reliability coefficient of the E.P.P.S. variables	197
4.4	SRI items arranged by scales	206
4.5	Reliability of the anxiety test	210
5.1	Characteristics of the sample	240
5.3	Mean, S.D., Mdn and mode of n-Ach. scores of the Ss.	257
5.4	Essential statistics (Ms. and S.Ds.) for n-Ach. scores in various studies - Indian/ foreigh	258
5.5	n-Ach. components present in the imaginative stories written by the total sample of the study	261
5.6	Showing the various components of AI stories with f and %.	262
5.7	Ms. and S.Ds. of the E.P.P.S. variables for the normative samples.	266
5.8	Means and S.Ds. of the E.P.P.S. for the normative sample of college men and women of U.S.A.	267
5.9	Means and S.Ds. of 9 scores of self perception for the normative samples	270
5.10	Means and S.Ds. of women teacher trainees	273
5.11	" " " " the teacher trainees anxiety test.	274
5.12	" " " " in academic achievement of B.Ed. trainees	276

5.13	Means and S.Ds. of n-Ach. scores related to teacher trainees	277
5.14	Dependent variables - 35	281
5.15-22	Means and S.Ds. and significance of difference in means of INT levels and anxiety, 15 dimensions of E.P.P.S., 9 majors of Self-perception, performance, n-Ach. and 7 dimensions of SRC	286-315
5.23-29	Means and S.Ds. and significant difference of means of SESA in relation to INT, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of self-perception, performance, n-Ach. and seven measures of SRC.	316-331
5.30-36	Means S.Ds. and significantx difference of means of SES-B in relation to INT anxiety, 15 dimensions of E.P.P.S., 9 sub scales of self perception, performance, socio-economic status and 7 measures of SRC.	335-350
5. 37-43	Means S.Ds. and significance of diffetence of means of SES-C in relation to INS, anxiety, 15 dimensions of E.P.P.S., 9 sub scales of ~~sub~~-self-perception, performance, n-Ach. and 7 measures of SRC.	357-367
5. 44 -50	Means, S.Ds. and significance of difference in means of performance levels in relation to INT,Anxiety, 15 dimensions of E.P.P.S., 9 sub scales of Self perception, Performance scores, n-Ach., and 7 measures of SRC.	370-382
5. 51-57	Means and S.Ds. and significance of difference of means of sex,male and female in relation to INS, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance, n-Ach., and 7 measures of SRC	385-395
5. 58-64	Means, S.Ds. and significance of difference of Ms. of ~~sex~~/in relation to INT, anxiety, 15 dimensions of e.p.p.s. , 9 sub scales of SRI, performance, n-Ach. and 7 measures of self report card.	/teaching experience 400-408
5. 65-71	Ms. S.Ds. and significance of difference in means of 3 levels of economic-status in relation to INT, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI performance n-Ach. and 7 measures of SRC.	412-421

5. 72 - 78	Ms.,S.Ds. and significance of difference in means of urban/rural residence in relation to INT, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance, n-Ach. and 7 ~~majors-of~~ measures of SRC	423 - 433
5. 79 - 85	Ms., S.Ds. and significance of difference of means of traditional/modern outlook in relation to INT, anxiety, 15 dimensions of E.P.P.S. 9 sub-scales of SRI, performance, n-Ach. and 7 measures of SRC	436- 447
5. 86 - 92	Ms., S.Ds. and significance of difference in means of religious/liberal outlook in relation to INT, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance, n-Acg. and 7 measures of SRC.	451 -460
5. 93 - 99	Ms., S.Ds. and significance of difference in the means of 3 levels of n-Ach. in relation to INT, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance, n-Ach. score and 7 measures of SRC.	464 -486
5. 100-133	Correlation between the scores of n-Ach., and other 34 variables such as intelligence, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance, ~~xxxxxx~~ and 7 measures of SRC.	486 -515
6. 134-154	Correlation between the scores of self perception and other 34 variables such as INT, anxiety, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance, n-Ach., and the scores of 7 measures of SRC	516-530
5. 155-160	Correlation between anxiety, with other 34 variables such as INT, 15 dimensions of E.P.P.S., 9 sub-scales of SRI, performance and the scores of 7 self-report-card measures.	532-540
5. 161-166	Correlation between INS, and other 34 variables such as anxiety, 15 dimensions of E.P.P.S. 9 sub-scales of SRI, performance, n-Ach. and the scores of 7 measures of SRC	543-551

5.167 - 170	Correlation between performance scores and scores of INT, 15 dimensions of E.P.P.S., 9 sub-scales of SRI and 7 measures of self report card.	553-561
5.171 -	Intercorrelation between 15 E.P.P.S. dimensions, i.e., intercorrelational matrix 15 x 15	564
5.172 -	9 x 9 intercorrelation matrix of SRI dimensions and the total perception scores.	566
5.173 -	Showing prediction equations 435 criterion variables against the 12 predictor variables.	571- 74
5.174 -	Showing means and S.Ds. for 12 predictor variables .	575
5.175 -	Showing Ms., S.Ds., R-square and F Ratios for 35 criterion variables.	576
