

LIST OF TABLES

Sr. No.	Table Name	Page No.
1	Percentage Frequency Distribution of Background Characteristics of responses given for the comparison of selected Non-durable & Durable Consumer Products	115
2	Percentage Frequency Distribution of Frequency Purchase of Selected Non-durable with respect to the Background Characteristics	117
3	Percentage Frequency Distribution of Age of Selected Durable Products with respect to the Background Characteristics	119
4	Percentage Frequency Distribution of Intention for Replacement of Selected Durables with respect to the Background Characteristics	121
5	Percentage Frequency regarding loyalty to any specific brand in Selected Durable and Non Durable Products with respect to the Background Characteristics	123
6	Average opinion of respondents regarding their preference of various brands of Soap with respect to the Background Characteristics	125
7	Average opinion of respondents regarding their preference of various brands of Toothpaste with respect to the Background Characteristics	127
8	Average opinion of respondents regarding their preference of various brands of Chocolate with respect to the Background Characteristics	129
9	Average opinion of respondents regarding their preference of various brands of Television with respect to the Background Characteristics	131
10	Average opinion of respondents regarding their preference of various brands of Refrigerator with respect to the Background Characteristics	133
11	Average opinion of respondents regarding their preference of various brands of Car with respect to the Background Characteristics	135
12	Percentage Frequency Distribution of Reasons for switch over of brand for selected Non-durable consumer products with respect to the Background Characteristics	137
13	Percentage Frequency Distribution of Reasons for switch over of brand for selected Non-durable consumer products with respect to the Background Characteristics	139
14	Percentage Frequency Distribution of Most Important Product attributes for soap with respect to the Background Characteristics	141
15	Percentage Frequency Distribution of Most Important Product attributes for Toothpaste with respect to the Background Characteristics	142

16	Percentage Frequency Distribution of Most Important Product attributes for Chocolate with respect to the Background Characteristics	143
17	Percentage Frequency Distribution of most important product attributes for Television with reference to the background characteristics	144
18	Percentage Frequency Distribution of most important product attributes for Refrigerator with reference to the background characteristics	145
19	Percentage Frequency Distribution of most important product attributes for Car with reference to the background characteristics	147
20	Percentage Distribution of Reasons for Most Important Product Attribute for Selected Non-Durables	149
21	Percentage Distribution of Reasons for Most Important Product Attribute for Selected Durables	151
22	Percentage Frequency regarding the belief that brand loyalty increases as a result of presence of product attributes of choice in a brand of Selected Durable and Non-Durable Products with respect to the Background Characteristics	153 155
23	Percentage Frequency regarding compromise with certain attributes if the one most important is found in a brand of Selected Durable and Non Durable Products with respect to the Background Characteristics	157
24	Percentage Frequency distribution for change in product attributes affecting buying decisions for selected Non-durables & Durables with respect to the Background Characteristics	159
25	Percentage Frequency distribution for the extent of influence of product attributes on buying decisions for selected Non-durables & Durables with respect to the Background Characteristics	161
26	Percentage Frequency distribution of sources of awareness about presence of attributes in a soap, toothpaste, and chocolate brands with respect to the Background Characteristics	163 164 165
27	Percentage Frequency distribution of sources of awareness about presence of attributes in a television, refrigerator and car brands with respect to the Background Characteristics	167 168 169
28	Percentage Frequency distribution for comparison of product attributes of competing brands of selected Non-durables & Durables with respect to the Background Characteristics	171
29	Percentage Frequency distribution for diversion of mind due to cheaper product for selected Non-durables & Durables with respect to the Background Characteristics	173
30	Percentage Frequency regarding consideration of health aspects in Selected Durable and Non Durable Products with respect to the Background Characteristics	175
31	Percentage Frequency distribution helping in brand comprehension of a soap, toothpaste and chocolate with respect to the Background Characteristics	177 178 179

32	Percentage Frequency distribution helping in brand comprehension of a television, refrigerator and car with respect to the Background Characteristics	181 182 183
33	Percentage Frequency distribution helping in brand recall of a soap, toothpaste and chocolate with respect to the Background Characteristics	185 186 187
34	Percentage Frequency distribution of attributes helping in brand recall of a television, refrigerator and car brands with respect to the Background Characteristics	189 190 191
35	Percentage Frequency distribution for the extent to which product performance matches the claims made by offers of Selected Non - Durable and Durable Products with respect to the Background Characteristics	193
36	Percentage Frequency distribution for the effect on next purchase / replacement of Selected Non - Durable and Durable Products with respect to the Background Characteristics	195
37	Percentage Frequency distribution for reaction when attributes of expectations are not found in a brand of selected Non – Durable Products with respect to the Background Characteristics	197
38	Percentage Frequency distribution for reaction when attributes of expectations are not found in a brand of selected Durable Products with respect to the Background Characteristics	199
39	Percentage Frequency distribution for favourable experience of a product resulting in a repeat purchase for Selected Non - Durable and Durable Products with respect to the Background Characteristics	201
40	Percentage Frequency Distribution of value added by product attributes in a brand of soap, toothpaste, chocolate with respect to the Background Characteristics	203 204 205
41	Percentage Frequency Distribution of value added by product attributes in a brand of Television, refrigerator, car with respect to the Background Characteristics	207 208 209
42	Percentage Frequency distribution for cognitive, affective and conative decision for Selected Non - Durable Products with respect to the Background Characteristics	211
43	Percentage Frequency distribution for Cognitive, Affective and Conative decision for Selected Durable Products with respect to the Background Characteristics	213
44	Percentage Frequency distribution for associates in decision making about buying Soap, toothpaste, chocolate with respect to the Background Characteristics	215 216 217
49	Percentage Frequency distribution for associates in decision making about buying Television, refrigerator, car with respect to the Background Characteristics	219 220 221
50	Chi Square Result and Percentage Distribution regarding loyalty to any specific brands of Selected Non - Durable and Durable Products	223

51	Chi Square Result and Percentage Distribution regarding reasons for switch over to another brand for Selected Non - Durable and Durable Products	224
52	Chi Square Result and Percentage Distribution regarding the belief that brand loyalty increases as a result of presence of product attributes of choice in a brand of selected Non - Durable and Durable	225
53	Chi Square Result and Percentage Distribution regarding compromise with certain product attributes if the one most important is found in a brand of selected Non - Durable and Durable	226
54	Chi Square Result and Percentage Distribution regarding the effect of change in product attributes on buying decisions of selected Non - Durable and Durable	227
55	Chi Square Result and Percentage Distribution for the extent of influence of product attributes on buying decisions of selected Non - Durable and Durable	228
56	Chi Square Result and Percentage Distribution for tendency to compare the product attributes of competing brands in buying decisions of selected Non - Durable and Durable	229
57	Chi Square Result and Percentage Distribution for tendency to choose a cheaper product compromising the other attributes of choice for selected Non - Durable and Durable	230
58	Chi Square Result and Percentage Distribution for favourable experience of a product resulting in a repeat purchase of the selected Non - Durable and Durable	231
59	Chi Square result and percentage distribution regarding the extent of belief that product performance matches the claims made by the offers of Selected Non-Durable and Durable Products	232
60	Chi Square Result and Percentage Distribution regarding the effect of the extent of belief that product performance matches the claims made by offers on next / repeat purchase of selected Non - Durable and Durable	233
61	Chi Square Result and Percentage Distribution regarding the consideration of health aspects in making the buying decisions for selected Non - Durable and Durable	234
62	TABLE 37 A – G Chi Square Result and Percentage Distribution regarding generating awareness through mass media for presence of product attributes in selected Non - Durable and Durable	235 to 238
63	TABLE 38 Chi Square Result and Percentage Distribution for importance of product variety in buying decisions for presence of product attributes in selected Non - Durable and Durable	239
64	TABLE 39 Chi Square Result and Percentage Distribution for importance of product quality in buying decisions for presence of product attributes in selected Non - Durable and Durable	239

65	TABLE 40 Chi Square Result and Percentage Distribution for importance of product design in buying decisions for presence of product attributes in selected Non - Durable and Durable	240
66	TABLE 41 Chi Square Result and Percentage Distribution for importance of product price in buying decisions for presence of product attributes in selected Non - Durable and Durable	240
67	TABLE 42 Chi Square Result and Percentage Distribution for importance of product features buying decisions for presence of product attributes in selected Non - Durable and Durable	241
68	TABLE 43 Chi Square Result and Percentage Distribution for importance of product brand name buying decisions for presence of product attributes in selected Non - Durable and Durable	241
69	TABLE 44 Chi Square Result and Percentage Distribution for importance of product packing buying decisions for presence of product attributes in selected Non - Durable and Durable	242
70	TABLE 45 Chi Square Result and Percentage Distribution for importance of product size buying decisions for presence of product attributes in selected Non - Durable and Durable	242
71	TABLE 46 Chi Square Result and Percentage Distribution for importance of product returns buying decisions for presence of product attributes in selected Non - Durable and Durable	243
72	TABLE 47 Chi Square Result and Percentage Distribution for importance of product colour buying decisions for presence of product attributes in selected Non - Durable and Durable	243
73	TABLE 48 Chi Square Result and Percentage Distribution for importance of product manufacturer's prestige decisions for presence of product attributes in selected Non - Durable and Durable	244
74	TABLE 49 Chi Square Result and Percentage Distribution for importance of product service decisions for presence of product attributes in selected Non - Durable and Durable	244
75	TABLE 50 Chi Square Result and Percentage Distribution for importance of product warranty decisions for presence of product attributes in selected Non - Durable and Durable	245
76	TABLE 51 Chi Square Result and Percentage Distribution for importance of product others decisions for presence of product attributes in selected Non - Durable and Durable	245
77	TABLE 52 Chi Square Result and Percentage Distribution regarding the impact of product attributes on brand comprehension for selected Non - Durable and Durable	247 to 250
78	TABLE 53 Chi Square Result and Percentage Distribution regarding the impact of product attributes on brand recall for selected Non - Durable and Durable	251 to 254
79	TABLE 54 Chi Square Result and Percentage Distribution regarding the responses on the most important attribute in buying decisions for selected Non - Durable and Durable	255

80	TABLE 55 A – N Chi Square Result and Percentage Distribution for comparison regarding product attributes and loyalty to any specific brand of selected Non - Durable and Durable	257 to 263
81	TABLE 56 A – N Chi Square Result and Percentage Distribution for comparison regarding product attributes and reasons for switch over to another brand for selected Non – Durable and Durable	265 to 278
82	TABLE 57 A – N Chi Square Result and Percentage Distribution for comparison regarding product attributes and belief that brand loyalty increases as a result of presence of product attributes of choice in a brand of selected Non - Durable and Durable	280 to 286
83	TABLE 58 A – N Chi Square Result and Percentage Distribution for comparison regarding product attributes regarding product attributes and a tendency to choose a cheaper product compromising the other attributes of choice for selected Non - Durable and Durable	288 to 294
84	TABLE 59 A – N Chi Square Result and Percentage Distribution for comparison regarding product attributes and consideration of health aspect in buying decision for selected Non - Durable and Durable	296 to 302
85	TABLE 60 A – E Chi Square Result and Percentage Distribution regarding the belief that product attributes Add value to the selected Non - Durable and Durable	304 305
86	TABLE 61 A – C Chi Square Result and Percentage Distribution regarding the attribution of buying decision for selected Non - Durable and Durable	307 308
87	TABLE 62 A – G Chi Square Result and Percentage Distribution regarding the associations of respondents for their buying decisions for selected Non - Durable and Durable	309 to 311
