

LIST OF FIGURES

Figure		Page
1	Wrinkle tester	63
2	Diagramatic representation of setting of pleats	67
3	Drafting of basic skirt	70
4	Adaptation from front sloper	72
5	Effect of acrylamide polymer finish on shrink-resistance in wool fabric (W).....	81
6	Effect of acrylamide polymer finish on shrink-resistance in cotton fabric (C).....	83
7	Effect of acrylamide polymer finish on shrink-resistance in cotswool fabric (CW).....	85
8	Effcet of acid chlorination and 5% acrylamide polymer finish on shrink-resistance in wool fabric (W)	88
9	Effect of 5% acrylamide polymer finish on shrink-resistance in wool fabric (W).....	91
10	Effect of 5% acrylamide polymer finish on shrink-resistance in wool fabrics (W ₁ , W ₂ and W ₃)..	94
11	Effect of acrylamide polymer finish on elastic recovery of wool fabric (W).....	98
12	Effect of acrylamide polymer finish on elastic recovery of cotton fabric (C).....	100
13	Effect of acrylamide polymer finish on elastic recovery of cotswool fabric (CW).....	101

Figure		Page
14	Effect of acrylamide polymer finish on tensile strength of wool fabric (W)..... ₁	104
15	Effect of acrylamide polymer finish on tensile strength of cotton fabric (C).....	106
16	Effect of acrylamide polymer finish on tensile strength of cotswool fabric (CW).....	108
17	Effect of acrylamide polymer finish on percent elongation of wool fabric (W)..... ₁	111
18	Effect of acrylamide polymer finish on percent elongation of cotton fabric (C).....	113
19	Effect of acrylamide polymer finish on percent elongation of cotswool fabric (CW).....	116
20	Effect of acrylamide polymer finish on tearing strength of fabrics (W ,C, CW)..... ₁	118
21	Effect of acrylamide polymer finish on bending length of fabrics (W ,C and CW)..... ₁	122
22	Effect of acrylamide polymer finish on wrinkle recovery of fabrics (W ,C and CW)..... _o	126
23	Effect of acrylamide polymer finish on appearance rating of wool fabric (W)..... ₁	130
24	Effect of acrylamide polymer finish on appearance rating of cotton fabric (C).....	131
25	Effect of acrylamide polymer finish on appearance rating of cotswool fabric (CW).....	132

Figure		Page
26	Effect of acrylamide polymer finish on percent retention of pleats in wool fabric (W ₁).....	136
27	Effect of acrylamide polymer finish on percent retention of pleats in cotton fabric (C).....	138
28	Effect of acrylamide polymer finish on percent retention of pleats in cotswool fabric (CW).....	139
29	Effect of acrylamide polymer finish on wrinkle recovery of fabrics (W ₁ , C and CW) before and after washing.....	143
30	Effect of acrylamide polymer finish on bending length of fabrics (W ₁ , C and CW) before and after washing.....	144
31	Effect of acrylamide polymer finish on retention of pleats in half skirt of wool fabric (W ₁).....	151
32	Effect of acrylamide polymer finish on retention of pleats in half skirt of cotton fabric (C)....	152
33	Effect of acrylamide polymer finish on retention of pleats in half skirt of cotswool fabric (CW).	153
34	Effect of 5% acrylamide polymer finish on elastic recovery of wool fabric (W ₂).....	182
35	Effect of 5% acrylamide polymer finish on tensile strength of wool fabric (W ₂).....	183
36	Effect of 5% acrylamide polymer finish on percent elongation of wool fabric (W ₂).....	185

Figure		Page
37	Effect of 5% acrylamide polymer finish on tearing strength of wool fabric (W_2).....	187
38	Effect of 5% acrylamide polymer finish on bending length of wool fabric (W_2).....	188
39	Effect of 5% acrylamide polymer finish on wrinkle recovery ^o of wool fabric (W_2).....	190
40	Effect of 5% acrylamide polymer finish on appearance rating of wool fabric (W_2).....	191
41	Effect of 5% acrylamide polymer finish on retention of pleats in wool fabric (W_2).....	193
42	Effect of 5% acrylamide polymer finish on retention of pleats in wool fabric (W_1 and W_2).....	194
43	Effect of 5% acrylamide polymer finish on wrinkle recovery ^o of wool fabric (W_2) before and after washing.....	196
44	Effect of 5% acrylamide polymer finish on bending length of wool fabric (W_2) before and after washing.....	197
