

LIST OF GRAPHS

Graph No.	Title of Graph	Page No.
4.1	FTIR spectra of untreated banana fiber	102
4.2	X-ray diffractogram of untreated banana fiber	103
4.3	Evenness of raw banana fiber	104
4.4	Load elongation curve of banana fibers (a) raw (b) enzyme treated (c) chemical treated	119
4.5	Stress strain curve of untreated and treated banana fibers	120
4.6	Fiber evenness of untreated and treated banana fibers	123
4.7	X-ray diffraction pattern of (a) raw, (b) enzyme treated, (c) chemical treated banana fiber.	130
4.8	FTIR spectra of untreated and treated banana fibers	131
4.9	Yarn evenness (a) raw yarn, (b) enzyme treated yarn, (c) chemical treated yarn	138
4.10	Stress – strain curves derived from the load –extension curves for untreated, enzyme treated and chemical treated banana fiber	139
4.11	Yarn evenness of blends of regenerated fibers and banana fibers	147
4.12	Stress – strain curves derived from the load –extension curves for regenerated fiber and banana union fabrics	148
4.13	Percent warp and weft shrinkage of untreated and treated banana fabrics	153
4.14	Bending length of cotton banana untreated and treated fabrics of category 1	159
4.15	Bending length of regenerated/ banana fabrics of category III	161
4.16	Cover factor of union banana fabrics	162
4.17	Stress strain curve for untreated cotton banana fabric I	164
4.18	Stress strain curve for enzyme treated cotton banana fabric I	164
4.19	Stress strain curve for chemical treated cotton banana fabric I	165
4.20	Stress strain curve for untreated cotton banana fabric II	165
4.21	Stress strain curve for enzyme treated cotton banana fabric II	165
4.22	Stress strain curve for chemical treated cotton banana fabric II	166
4.23	Stress strain curve for viscose banana chemical treated fabric III	166
4.24	Stress strain curve for modal banana chemical treated fabric III	166
4.25	Stress strain curve for excel banana chemical treated fabric III	167
4.26	Stress strain curve for viscose banana enzyme treated fabric III	167
