

## LIST OF TABLE

<b>Table No.</b>	<b>Title</b>	<b>Page No</b>
3.1	Measurement chart of subjects for wear trials (in cm)	68
3.2	Measurements of front and back body landmarks on standard 81.0 cm bust size garment	68
4.1	Fabrics used for the study	72
4.2	Preliminary data of fabrics	72
4.3	Percent Lycra content in fabric samples under study	74
4.3(a)	Pilling resistance of fabrics under study	76
4.3(b)	Abrasion resistance of fabrics under study	76
4.4	Growth and elastic recovery value of fabrics in warp and weft directions	77
4.5	Load and elongation properties of woven fabrics	78
4.6	Load and elongation properties of knitted fabrics	79
4.7	Shrinkage behavior of fabrics under study	82
4.8	Air permeability of treated and untreated fabrics	85
4.9	Tensile strength of woven fabric A	87
4.10	Elastic recovery behaviour of plain weave fabric in warp direction	87
4.11	Elastic recovery behaviour of plain weave fabric in weft direction	88
4.12	Elastic recovery value of plain weave fabric in bias direction	88
4.13	Tensile strength of twill weave fabric B	90
4.14	Elastic recovery value of twill weave fabric in warpwise direction	90
4.15	Elastic recovery value of twill weave fabric in weftwise direction	91
4.16	Elastic recovery value of twill weave fabric in bias direction	91
4.17	Tensile strength of single jersey knit fabric C	93

<b>Table No.</b>	<b>Title</b>	<b>Page No</b>
4.18	Elastic recovery value of single jersey knit fabric in walewise direction	93
4.19	Elastic recovery value of single jersey knit fabric in coursewise direction	94
4.20	Elastic recovery value of single jersey knit fabric in bias direction	94
4.21	Tensile strength of rib knit fabric D in wale, course and bias direction	96
4.22	Elastic recovery of rib knit fabric in wale direction	96
4.23	Elastic recovery of rib knit fabric in course direction	97
4.24	Elastic recovery of rib knit fabric in bias direction	97
4.25	Seam strength of woven fabrics under study	100
4.26	Seam strength of knit fabrics under study	102
4.27	Percent recovery of woven garments	119
4.28	Percent recovery of knit garments	120
4.29	Mean comparison for front of garment A with regards to 81.0 and 86.0 cm bust size using paired t-test	121
4.30	Mean comparison for front of garment A with regards extension and recovery of fabric	121
4.31	Mean comparison for front of garment A with regards to extension and recovery of fabrics with Test value	122
4.32	Mean comparison for back of garment A with regards to 81.0 and 86.0 cm bust size using paired t-test	122
4.33	Mean comparison for back of garment A with regards extension and recovery of fabric	123
4.34	Mean comparison for Back of garment A with regards to extension and recovery of fabrics with test value	123
4.35	Mean comparison for front of garment B with regards to 81.0 and 86.0 cm bust size using paired t-test	124
4.36	Mean comparison for front of garment B with regards extension and recovery of fabric	124

<b>Table No.</b>	<b>Title</b>	<b>Page No</b>
4.37	Mean comparison for front of garment B with regards to extension and recovery of fabrics with Test value	124
4.38	Mean comparison for back of garment B with regards to 81.0 and 86.0 cm bust size using paired t-test	125
4.39	Mean comparison for back of garment B with regards extension and recovery of fabric	125
4.40	Mean comparison for Back of garment B with regards to extension and recovery of fabrics with Test value	126
4.41	Mean comparison for front of Garment C with regards to 81.0 with 86.0, 91.0 and 96.0 bust size using paired t-test	126
4.42	Mean comparison for front of Garment C with regards to extension and recovery using paired t-test	127
4.43	Mean comparison for front of garment C with regards to extension and recovery of fabrics with Test value 7.2	127
4.44	Mean comparison for back of Garment C with regards to 81.0 with 86.0, 91.0 and 96.0 bust size using paired t-test	128
4.45	Mean comparison for back of Garment C with regards to extension and recovery using paired t-test	128
4.46	Mean comparison for Back of garment C with regards to extension and recovery of fabrics with Test value 7.2	129
4.47	Mean comparison for front of Garment D with regards to 81.0 with 86.0, 91.0 and 96.0 bust size using paired t-test	129
4.48	Mean comparison for front of Garment D with regards to extension and recovery using paired t-test	130
4.49	Mean comparison for front of garment D with regards to extension and recovery of fabrics with Test value 7.79	130
4.50	Mean comparison for back of Garment D with regards to 81.0 with 86.0, 91.0 and 96.0 bust size using paired t-test	131
4.51	Mean comparison for back of Garment D with regards to extension and recovery using paired t-test	131
4.52	Mean comparison for Back of garment D with regards to extension and recovery of fabrics with Test value 7.79	132
