CHAPTER NO.	CONTENTS	PAGE NO.
1.	INTRODUCTION	1-16
	• Justification	13
	• Objectives of the Study	15
	• Hypotheses of the Study	15
	• Delimitation of the Study	16
2.	REVIEW OF LITERATURE	17-60
	• Theoretical Orientation	18-33
	• Empirical Studies	33-60
3.	METHODOLOGY	61-90
	• Research Design	62
	• Variables	63
	• Schematic Diagram of the Variables	64
	• Operational Definition	64
	• Locale of the Study	67
	• Unit of Enquiry	68
	• Sample size and Sampling Procedures	68
	• Development of the Tool	70
	• Description of the Tool	71
	• Data Collection	78
	• Data Analysis	82

	• Ergonomic Intervention Programme	86
4.	FINDINGS AND DISCUSSION	91-158
	• Demographic profile of the Respondents	91-100
	• Anthropometric data of the respondents and their Workstation Dimensions	101-106
	• Perceived Musculoskeletal Pain experienced by the Respondents	107-136
	• Postural Discomfort of the Respondents	137-140
	• Environment of the Workplace of the Respondents	141-152
	• Perceived Fatigue and Physiological Cost of Work	153-156
	• Testing of Hypotheses	157-166
	• Ergonomic Intervention Programme for the selected owners and the Respondents	167-188
5.	SUMMARY CONCLUSION AND RECOMMENDATIONS	189-206
	• Summary	189-201
	• Conclusion	202
	• Implications	204
	• Recommendations	206

BIBLIOGRAPHY & WEBLIOGRAPHY 207-222

APPENDICES 223-260

ABSTRACT 261-264
