

ACKNOWLEDGEMENTS

The author takes this opportunity to extend her sincere thanks and indebtedness to Dr.(Miss) N. Ogale for helpful guidance and encouragement during the various phases of this investigation.

Thanks are due to Professor A. Verma, Dean, Faculty of Home Science, M.S. University for her interest in the work.

She places on record her sincere gratitude to The Computer Centre, M.S. University and ORG-ASE Baroda for their valuable and timely services.

She is also thankful to Mrs. R. Abbi for her suggestions in the statistical analysis of the data.
