

FURURE SCOPE OF INVESTIGATION

CHAPTER VIII

FUTURE SCOPE OF INVESTIGATION

- ✓ To sensitize the food safety officers and health officers through state level seminars on the need for training the street food vendors to reduce the occurrence of FBDs.
- ✓ To identify the bottlenecks for implementation of programs.
- ✓ To educate the consumers about food safety to increase the awareness.
- ✓ To identify change agents amongst the food service providers having positive food safety behaviors to train them in food safety.
- ✓ To study the role of food inspectors and sanitary officers for implementation of food safety.
- ✓ To study the extent to which Good Manufacturing Practices (GMPs) and Good Handling Practices (GHPs) are followed by the restaurants.
- ✓ To study the effectiveness of using hand sanitizers and wash treatments of raw produce on microbial quality of high risk foods.
