

## LIST OF TABLES

Table No.	Title	Page No.
2.1.1.1	Summary statistics for Food borne Disease Outbreaks, 2005	12
2.1.1.2	Summary statistics for Food borne Diseases Outbreaks, 2006	13
2.5.1	Etiology of restaurant-associated outbreaks reported to the Centers for Disease Control and Prevention during the period 1998–2004	31
2.8.1	Selected recent multinational food borne outbreaks due to contaminated produce items	30
4.5.1	Details of the contents covered for the training sessions for street food vendors	60
4.5.2	Details of the contents covered for the training sessions for Restaurant owners and handlers	63
5.1.1.1	General information of the respondents of the Structured and Unstructured Food service establishments	85
5.1.1.2	Information related to the respondents employed in the Structured and Unstructured Food service establishments	87
5.1.1.3	Educational level of the respondents of the Food service establishments	88
5.1.1.4	Statistical analysis between type of the unit and educational level of respondents	88
5.1.1.5	Nature of jobs done by the family members of the structured and unstructured units	89
5.1.2.1	Number of employees engaged in the structured and unstructured units	89
5.1.2.2	Daily average income of the respondents of Food service establishments	90
5.1.2.3	Statistical analysis between daily average income of the respondents and the type of units	90
5.1.2.4	Possession of license of the structured and unstructured units	90
5.1.2.5	Information on the working hours of the food service units	93
5.1.2.6	Information on the average consumers visiting the food service units	93
5.1.3.1	Raw food procurement practices of the Structured and Unstructured Units	94
5.1.3.2	Information on availability of smokeless fire and separate store for raw materials in the unit	95
5.1.4.1	Mean Knowledge scores of the food service establishments	98
5.1.4.2	Effect of Education level on the Knowledge scores for different FSPs (n=153)	99
5.1.5.1	Mean Practice scores of the food service establishments	101
5.1.5.2	Effect of Education level on the practice scores for different FSPs (n=153)	104
5.1.5.3	Effect of Ownership on Practice scores for different FSPs (n=153)	104
5.1.5.4	Daily income for structured units vs availability of various infrastructural facilities (n=90)	105
5.1.5.5	Willingness for training vs Educational status, Age, Daily wages and Experience in occupation (n=153)	106
5.1.5.6	Association of educational status with income and years of experience (n=153)	106

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
5.1.5.7	Correlations between knowledge and practices of various food service establishments	107
5.1.5.8	Effect of Age on Practice scores for different FSPs (n=153)	107
5.1.5.9	Effect of Age on Knowledge scores for different FSPs (n=153)	107
5.2.4.1	Extent of support provided by the PIMC	119
5.3.1.1	General information of the street food vendors (N = 41)	124
5.3.2.1	Information on the street food unit (N = 41)	126
5.3.2.2	Information on the working hours, average number of consumers and average income on weekdays and weekends	128
5.3.2.3	Existing practices followed by street food vendors (N = 41) related to the procurement of raw and semi processed ingredients	133
5.3.2.4	Number of subjects observed for cleanliness of the unit, working surface, sanitaris and serving ware	134
5.3.3.1	Mean values of knowledge scores as affected by Food Safety Education training to Street Food Vendors	137
5.3.3.2	Impact of training on various aspects of food safety related Knowledge of Street Food vendors (N = 41)	138
5.3.4.1	Mean values of Practice scores as affected by Food Safety Education training to Street Food vendors (N = 41)	140
5.3.4.2	Impact of training on various aspects of food safety related Practices of Street Food vendors (N = 41)	142
5.3.4.3	Average number of consumers v/s Practice ranks (N = 41)	144
5.3.4.4	Income level v/s Practice ranks (N = 41)	144
5.3.4.5	Income v/s availability of cover for push cart	144
5.3.4.6	Association amongst the various socio economic parameters with the food safety practices (N = 41)	144
5.3.5.1.1	Mean scores for individual practices adopted by SFVs before and after training program	148
5.3.5.1.2	Impact of training on total scores and various categories of practices i.e. food hygiene, personal hygiene, unit hygiene and environment hygiene followed by 40 street food vendors	149
5.4.1.1	Baseline information of the small and medium restaurants (n=30) of Urban Vadodara	161
