

CONTENTS

CHAPTER-1	INTRODUCTION	
1.1	Introduction	2
1.2	Formation	2
1.3	Composition of Petroleum	4
1.4	Types of Crude Oils	8
1.5	Characteristics of Crude Oil	9
1.6	Effect of Temperature on Viscosity of crude Oil	16
1.7	Rheology	16
1.8	Blockage of Crude Oil pipelines due to wax precipitation	23
1.9	Phenomenon of wax deposition in crude oil	23
1.10	Factors Affecting Rate of wax deposition	24
1.11	Methods for Controlling Deposition of wax	25
1.12	Chemical Additives for crude oil	25
1.13	Types of Pour Point Depressants	26
1.14	Mode of action of wax crystal modifiers for waxy crudes	27
1.15	Mechanism of Pour Point Depression	28
1.16	Role of Polymeric Additive and Temperature in changing the	30
1.17	Factors affecting Performance of Pour Point Depressants	31
1.18	Aims and Scope of Work	31
CHAPTER-2	SYNTHESIS AND CHARACTERIZATION OF POLYMERIC FLOW IMPROVER	
2.1	General	34
2.2	Addition Polymerization	35
2.3	Synthesis of poly(octyl ricinolate-co-octadecyl maleimide-co-alkyl ricinolate)	38
2.4	Synthesis of poly (octyl oleate-co-octadecyl maleimide-co-alkyl oleate)	45
2.5	Synthesis of poly (octyl cinnamate-co-octadecyl maleimide-co-alkyl cinnamate)	52
2.6	Synthesis of poly (octyl Undecylate-co-octadecyl maleimide-co-alkyl Undecylate)	59
CHAPTER-3 (I)	EVALUATION OF POLYMERIC FLOW IMPROVERS OR POUR POINT DEPRESSANTS ON KOSAMBA-47 (GUJARAT, INDIA) CRUDE OIL	
3.1.1	Physico-Chemical Properties of Kosamba-47 crude oil	68
3.1.2	Pour Point Determination	69
3.1.3	Rheological Studies	70
3.1.4	Results and Discussion	72
3.1.4.1	Evaluation of Polymeric Additives as Pour Point Depressants	72
3.1.4.2	Evaluation of Polymeric Additives on Rheological Parameters	74
3.1.5	Conclusion	111
3.1.5.1	Pour Point of Kosamba-47 crude oil	111

3.1.5.2	Rheological Studies	112
CHAPTER-3 (II) EVALUATION OF POLYMERIC FLOW IMPROVERS OR POUR POINT DEPRESSANTS ON KOSAMBA-33 (GUJARAT, INDIA) CRUDE OIL		
3.2.1	Physico-Chemical Properties of Kosamba-33 crude oil	115
3.2.2	Pour Point Determination	115
3.2.3	Rheological Studies	115
3.2.4	Results and Discussion	116
3.2.4.1	Evaluation of Polymeric Additives as Pour Point Depressants	116
3.2.4.2	Evaluation of Polymeric Additives on Rheological Parameters	118
3.2.5	Conclusion	156
3.2.5.1	Pour Point of Kosamba-33 crude oil	156
3.2.5.2	Rheological Studies	156
CHAPTER-3 (III) EVALUATION OF POLYMERIC FLOW IMPROVERS OR POUR POINT DEPRESSANTS ON BOMBAY HIGH (MUMBAI, MAHARASHTRA, INDIA) CRUDE OIL		
3.3.1	Pour Point Determination	159
3.3.2	Rheological Studies	159
3.3.3	Results and Discussion	159
3.3.3.1	Evaluation of Polymeric Additives as Pour Point Depressants	159
3.3.3.2	Evaluation of Polymeric Additives on Rheological Parameters	160
3.3.4	Conclusion	
3.3.4.1	Pour Point of Bombay High crude oil	
3.3.4.2	Rheological Studies	
CHAPTER-4	SUMMARY & CONCLUSIONS	207
