

CONTENTS

1. General introduction to Wavelets and Artificial neural networks.....	01
2. Complexities of printed Gujarati Character Recognition and related work	43
3. A wavelet based MRA technique for approximating a discrete Signal...	58
4. Classification of symbols of Gujarati script using Wavelets and Multilayer Perceptron.....	74
5. Classification of symbols of Gujarati script using General Regression Neural Networks	92
6. Kernel based ANN classifiers, Radial Basis Function networks and Support Vector Machines.	106
 Summary	 145
Appendix	147
Publications	165
