List of Research Papers

(Published, Presented, and Communicated)

[1*] **Error Estimates for Wavelet-Galerkin Solution of Boundary Value Problem**, Bulletin of Pure and Applied Sciences, Vol. 23 E, No.1, 2004.

[2*] **Numerical Simulation of Cooling of Coke in Can**, Applied Science Periodical, Vol. VIII, No. 2, May 2006 (To appear).

[3*] **Mathematical Models for Pressure Distribution in Slider Bearing Lubricated with Viscous Fluid**, 69th Annual Conference of Indian Mathematical Society, 26th – 29th December 2003, Lucknow, Uttar Pradesh, India. (Presented)

[4*] **Numerical Simulation of Burger's Equation using Daubechies Wavelets**, International Conference of Industrial and Applied Mathematics, 4th – 6th December 2004, organized by Jamia Milia Islamia & Society of Industrial and Applied Mathematics, New Delhi, India. (Presented)

[5*] **Weight Functions and Finite Pointset Method for One Dimensional Problem**, International Conference on Recent Trends on Non-Linear Analysis and its Applications, 10th – 13th December 2004, organized by IIT Bombay, Mumbai, India and OCIAM, U. K. (Presented)

[6*] **Preconditioners and the Finite Pointset Discretizations of Elliptic Problems Arise in Fluid Models**, 70th Annual Conference of Indian Mathematical Society, 26th – 29th December 2004, Jodhpur, Rajasthan, India (IMS prize for the Best Research Paper in the field of Fluid Dynamics). (Presented)

[7*] **Finite Pointset Method and Neighboring Algorithms for the Elliptic Problems Modeled from Flow Problems**, 19th Gujarat Science Congress, 19th February 2005, Sardar Patel University, Vallabh Vidyanagar, Gujarat, India. (Presented)

[8*] **Analysis of Fluid Flow through Finite Pointset Method**, Society for Applied and Numerical Methods (SANUM 2005), Department of Applied Mathematics, University of Stellenbosch, South Africa during 30th March – 1st April 2005. (To be presented)

[9*] **Molecular Dynamics of Granular Particles**, Annual conference on Modeling, Simulation and Design of Dielectrics, Homerton College, Cambridge, London, United Kingdom, during 6th – 8th April 2005. (To be presented)

[10*] **A Wavelet Preconditioner for Two-Dimensional Elliptic Problem,** at Annual Conference of 57th British Mathematics Colloquium and 47th British Applied Mathematics Colloquium, during 4th – 7th April 2005, Liverpool, United Kingdom. (To be presented)

[11*] **Wavelet-based Green's Function Approach to Helmholtz and Modified Helmholtz Problem,** Journal of Israel Mathematical Society (Communicated).

[12*] **Wavelet Transform Solution of Elliptic Partial Differential Equations,** Turkish Journal of Mathematics (Communicated).

[13*] **Wavelet-Galerkin Solution of Hyperbolic Problems with Preconditioning,** Bulletin of Calcutta Mathematical Society (Communicated).

[14*] **Wavelet-Galerkin Solution of Parabolic Problems with Preconditioning,** Indian Journal of Pure and Applied Mathematics (Communicated).

[15*] **Wavelet Transform Solution of Dirichlet Boundary Value Problem,** Nepal Mathematical Sciences (Communicated).
