

## A C K N O W L E D G E M E N T

I want to express my profound gratitude to my supervisor **Dr. Dhanesh P. Patel**, for giving me the nice problem. His extensive knowledge, unfailing optimism, and easy nature have made this thesis an exciting and enjoyable experience, which definitely will shape my future. I am also thankful to him for his constant encouragement, kind advise and support throughout my work.

I would like to thank **Prof. S. Ramamohan**, Head of Department of Applied Mathematics, for providing me the necessary facilities during my work.

I express my sincere thanks to **Prof. V. D. Pathak** for necessary discussion during my work.

I am very much grateful to my parents who encouraged me for such type of higher studies right from my childhood. They are always with me in my struggles.

Last but not the least, I am very much thankful to my loving husband **Sachin** for providing me the cozy and lovable environment at home which was valuable for concentrating on the research work. He deserves a special thanks.

Thank you all.
