

Acknowledgement

Undertaking this PhD has been a truly life-changing experience for me and it would not have been possible to do without the support and guidance that I received from many people.

*It is a great pleasure for me to express my deep sense of indebtedness and heartfelt gratitude to my guide **Dr. Bishwajit S. Chakarabarty**, Associate Professor in Department of Applied Physics, Faculty of Technology and Engineering, The M. S. University of Baroda, Vadodara. His enlightened approach, keen interest and constant encouragement made it possible for me to complete this work. He is not just supervisor but also a father figure for me. Words are not enough to express my gratitude towards him.*

*I am especially grateful to **Dr. Aleksandar Ćirić**, Assistant Professor at Vinča Institute of Nuclear Sciences – National Institute of the Republic of Serbia, University of Belgrade, Belgrade, Serbia. He is very kind and helpful person and a constant source of motivation for me. Without his guidance and feedback, this Ph. D. would not have been achievable. We have published three articles in reputed journals under the collaboration and many more will come. I gratefully*

acknowledge him and the Ministry of Education, Science and Technological development of the Republic of Serbia.

I am very much thankful to Dr. K. V. R. Murthy, Department of Applied Physics, Faculty of Technology and Engineering, The M. S. University of Baroda, Vadodara for providing me the facilities for my experimental research work and valuable guidance as and when required with warm feelings.

I am also thankful to Prof. Arun Pratap, Dr. Arun Anand, Dr. Jignesh Pandya, Prof. Kirit Lad, Dr. Ashwin Prajapati, Dr. Navin Acharya, Dr. D. R. Joshi, Dr. Y. H. Gandhi, Dr. N. D. Chavda and Dr. Chetan Limbachiya for their kind and generous co-operation and inspiration during the research work.

I wish to place on record my wholehearted thanks to Dr. Vismay Trivedi and Mr. Swapnil Mahajan for their kind help in my research whenever I required.

I cannot forget my colleagues Dr. Sohan Chauhan, Ms. Kavita Kolte and Mr. Dhaval Hirani for their support and help during this work. I wish to thank from the bottom of my heart. I also thank my dear friends and colleagues, Axay, Margi, Dr. Nakul Soni, Dr. Rutvi Pandya, Dr. Deepak Upadhyay, Nimit, Subhas, Mugdha, Priyanka, Chetna, Shivani, Jaya, Karpgam and Hiral for their moral support

and help during this work.

*I thankfully acknowledge the support provided by the **DST - FIST** program (SR/FST/PS-II//2017/20 (C)) Of Applied Physics Department, Faculty of Technology and Engineering, The M. S. University of Baroda, Vadodara.*

Words are not enough to express my gratitude for my parents. I would like to convey my heartfelt thanks for always believing in me and encouraging me to follow my dreams. Without their blessings, I could not have achieved this academic milestone and reached my ambitions. Their goodwill and inspiration far exceeded what the words of appreciation can express.

I would like to recognize the invaluable support from my sister Nidhi and her husband Ashish. Last but not the least, my hearty thanks to my fiancée Pooja, who has been by my side throughout the compilation of this work, supporting me spiritually and helping me in thesis writing.

Most importantly, at the end, I thank the almighty Supreme soul, whose thought keeps me energetic and enthusiastic at every moment in my life.

Kevıl Shah
