

List of Tables

Table 1.1 Seventeen rare earth elements and their properties

Table 2.1 Structural data of doped La_2O_3 samples extracted from the XRD spectra

Table 2.2 EDAX data of undoped/doped 1% Ln^{3+} : La_2O_3 with atomic percentage

Table 2.3 UV-VIS data of the samples

Table 2.4 Structural data of doped La_2O_3 samples extracted from the XRD spectra

Table 3.1 Structural data & lattice parameter of synthesized materials extracted from the XRD spectra

Table 3.2: EDAX data of compounds with weight percentage

Table 3.3 UV / VIS data of Compounds

Table 3.4 Redshift D, Crystal field splitting ϵ_{cfs} and Centroid shift ϵ_{c} of Synthesized Compounds

Table 4.1 Structural data from the XRD spectra of three different synthesis routes

Table 4.2 Structural data of doped $\text{La}_2\text{O}_2\text{S}$ extracted from the XRD spectra

Table 4.3 EDAX data of 1% Ln^{3+} : $\text{La}_2\text{O}_2\text{S}$ from the spectrum with Atomic percentage

Table 4.4 UV / VIS data of host $\text{La}_2\text{O}_2\text{S}$ as well as 1% Ln^{3+} : $\text{La}_2\text{O}_2\text{S}$

Table 4.5 Structural data of doped $\text{La}_2\text{O}_2\text{S}$ samples extracted from the XRD spectra

Table 5.1 Structural data of doped LaOF samples extracted from the XRD spectra

Table 5.2 EDAX data of 1% Ln^{3+} : LaOF from the spectrum with Atomic percentage

Table 5.3 UV/VIS data of host LaOF as well as 1% Ln^{3+} : LaOF

Table 5.4 Structural data of doped La_2O_3 samples extracted from the XRD spectra
