

## ACKNOWLEDGMENTS

I would like to express my sincere gratitude to Dr. Chetan Limbachiya, my thesis supervisor, for his continuous guidance and support over the years. I thank my co-supervisor Prof. Lokesh C Tribedi for his guidance, motivation and encouragement through the course of this work. He had given me the freedom to carry out the research projects successfully. I am thankful to Dr. B. S. Chakraborty, Head of the Department and Prof. Arun Pratap, Dean, Faculty of Technology and Engineering for providing all the support to carry out my research work. I would like to thank Prof. Roberto D. Rivarola, Dr. Juan M. Monti, Dr. Omar A. Fojon, Prof. Karoly Tokesi, Prof. Phillippe Weck and Dr. Christophe Champion for the valuable scientific discussions and fruitful collaborations.

I am thankful to Dr. Deepankar Misra for his help in different aspects related to experiments. I have always admired his patience and persistence towards any experiment. I am thankful to my colleagues Arnab, Shubhadeep, Shamik, Anuvab, Chandan, Nirav and Dhaval for their cooperation. I acknowledge the support of Mr. W. A. Fernandes, Mr. K. V. Thulasiram, Mr. N. Mhatre, Mr. D. Pathare and Mr. S. Manjrekar during my stay in the lab.

I am grateful to the Pelletron accelerator team and the ECR ion accelerator team for smooth operation of the machines during the beam-times. I would like to thank the TIFR Central workshop team, especially Mr. Satpute, Mr. Chogale, Mr. Thakor and Mr. More for their assistance related to different experimental parts.

The author gratefully acknowledges the support from the Council of Scientific and Industrial Research, Government of India.

Life is boring without friends. It was indeed a pleasure to have friends like Angana, Ahana, Pallabi, Sramana, Priyanka and Margi through the thick and thin days of my career as a research scholar. The long chats with Angana, Ahana and Pallabi at the TIFR colonnade and exploring the wide range of restaurants at Colaba will be missed. The chat sessions at the Nescafe with Margi and Priyanka will be reminisced. I am fortunate enough to have a friend like Kamalika. Both of us could discuss on any topic imaginable. How hard the day might have been, a prolonged conversation with Kamalika would serve as a real source of refreshment.

I would like to acknowledge my school and college teachers who have played an important role in my life. Special mention about Mrs. Sarkar who taught me the importance of self confidence during the school days. I am thankful to Mrs. Lachhima Gupta, my college teacher who enlightened me with the beauty of performing simple experiments. I express my gratitude to Dr. Debasis Ray who motivated me for pursuing research.

This is to mention further that at present the entire world is under the impact of the Covid-19 pandemic. I take this opportunity to thank all the warriors who have been standing at the forefront over the past several months, some of them saving lives while some others providing us with the basic amenities even under adverse conditions.

Last but not the least, I am grateful to my parents for their patience and encouragement over

the years. It would not have been possible to carry out this work without their cooperation and continuous moral support.
