List of Figures	iv
List of Tables	xi
Abstract	1
Chapter 1	3
Introduction.....	3
1.1 The Speckle Phenomenon	3
1.2 Types of Laser Speckle	5
1.3 Contrast of Laser Speckle.....	6
1.4 Lateral and Axial size of Laser Speckles	9
1.5 Laser Speckle in Optical Metrology.....	10
1.6 Outline of the thesis.....	12
Chapter 2.....	14
Correlation and its implementation in Speckle Metrology	14
2.1 Background of Speckle Correlation techniques	14
2.2 Basics of Correlation	15
2.2.1 Types of Correlation based on the class of variables involved.....	16
2.2.2 Types of correlation based on how the variables are compared (Autocorrelation and Cross-correlation).....	19
2.3 Motivation behind adopting the Speckle Correlation technique	21
Chapter 3.....	24
Speckle Correlation technique for measurement of optical properties	24
3.1 Introduction for Optical Rotation	24
3.1.1 Faraday Effect.....	26
3.1.1.1 Theory for Faraday Rotation	27
3.1.1.2 Experimental setup for Faraday Rotation Measurement	29
3.1.1.3 Calibration and Measurements	30
3.1.2 Optical Activity.....	37
3.1.2.1 Theory of Optical Activity.....	38
3.1.2.2 Experimental Setup for measurement of Optical Rotation due to Optical Activity	42

3.1.2.3 Calibration and Measurement.....	44
3.2 Refractive Index measurement	45
3.2.1 Theory behind refractive index measurement.....	49
3.2.2 Development of compact device for Refractive Index Measurement.....	50
3.2.3 Calibration and Measurements	53
3.3 Discussion and Future Scope	57
Chapter 4.....	59
Speckle correlation technique for measurement of physical parameters.....	59
4.1 Introduction	59
4.2 Temperature Measurement.....	60
4.2.1 Introduction.....	60
4.2.2 Experimental procedure for temperature measurement	62
4.2.3 Results and discussion	64
4.3 Magnetic Field Measurement	69
4.3.1 Introduction.....	69
4.3.2 Measuring the magnetic field without using the speckle correlation technique	72
4.3.3 Experimental Setup and Procedure.....	76
4.3.4 Results and Discussion	77
4.4 Conclusion.....	84
Chapter 5.....	86
Lensless Fourier Transform Digital Holography for microscopy and mapping	
Spatio-temporal evolution of refractive index for defect detection	86
5.1 Lensless Fourier Transform Digital Holography	86
5.2 Spatio-temporal evaluation of refractive index in Dielectric materials ..	91
5.2.1 Introduction.....	91
5.2.2. Experimental realization.....	93
5.2.3. Phase imaging capability	97
5.2.4. Dynamic phase imaging.....	99
5.2.5 Defect detection by thermal stressing	101

5.3 Lensless Fourier Transform digital holography for quantitative phase contrast imaging of Red Blood Cells	105
5.3.1 Introduction.....	105
5.3.2 Experimental Realization.....	105
5.4 Discussion	112
Chapter 6.....	114
Two wavelength contouring by iterative phase retrieval using volume speckle field	114
6.1 Introduction	114
6.2 Theoretical Background	116
6.3 Experimental Realization	120
6.4 Simulations	121
6.5 Results	125
6.6 Discussion	130
Chapter 7.....	131
Discussion and Future Scope	131
References.....	133
