

Everything begins with Amma and with Bunty's mother, Krishna, Gaurav, Aastha, Abhishek, Reyansh and rest of the family and extended family members.

While doing this study, I kept my mind shut and remained unmindful on many social activities which I was supposed to undertake and attend along with family members'. I also took a long sabbatical from my professional engagements.

Unwillingly, I know, on many instances; I became unbearable and kept long hours in the study with doors shut. Sleeping at odd hours and ignoring, food and fitness regime on many days so that I could complete a passage or chapter.

For all your love and understanding in supporting me in this educational journey....
