

List of Table

TABLE NO.	PARTICULARS	PAGE NO.
1.1	Year wise split of solar & wind target capacity in GW.	11
1.2	Trajectory of solar power projects capacity yr 2022 & 2047	13
1.3	Trajectory of Wind power projects capacity yr 2022 & 2047	14
1.4	Intuition`s Functional Framework for Renewable energy in India	24
1.5	List of leading Stake holders	25
1.6	Stack holders – Role	26
1.7	Renewable Energy Policy Imitativeness in India	31
1.8	Financial / Fiscal policy Incentives for promotion of RE	34
1.9	Regulatory Incentives for promotion of RE	35
3.1	Modified RPO trajectory for the year 2019-20 to 2021-2	87
3.2	Initial RPO trajectory for the years from 2016-17 to 2018-19	87
4.1	Research Objectives & its association with sources of information	94
4.2	Research Process	95
4.3	Sample size determination	103
4.4	Finalization of variable under study for the research	109
5.1	Break up of respondents with reference to `Years of Experience`	115
5.2	Break up of respondents companies presence in various state of India	116
5.3	Break up of respondents companies by `Types of Organizations	117
5.4	Break up of stake holders/ contributor respondents	118
5.5	Perception of various stakeholders for their responsibility / contribution for the development of renewable energy projects	119
5.6	Descriptive statistics- potential solar renewable energy	124
5.7	Descriptive statistics- potential of wind renewable energy	125
5.8	Frequency Distribution and descriptive statistic reg various policy	126
5.9	Frequency Distribution and Descriptive Statistics factors influencing decision	134
5.10	Frequency Distribution and Descriptive Statistics with respect to adequacy of manufacturing capacity in India	141
5.11	Descriptive statistics regarding motivation support	141
5.12	Descriptive statistics for affordability	143
5.13	Reliability Statistics	146
5.14	KMO and Bartlett`s test of Sphericity	148
5.15	KMO ranges Communalities	149
5.16	Total Variance Explained	150

5.17	Rotated Factor Loading Ma	152
5.18	Naming of Group of statements	153
5.19	Distribution of Statements of (Question no.17	154
5.20	KMO and Bartlett`s test of Sphericity	157
5.21	KMO ranges Communalities	158
5.22	Total Variance Explained	159
5.23	Rotated Factor Loading Matrix Q- 19	160
5.24	Naming of Group of statements Q-19	161
5.25	Distribution of Statements of Q-19	162
5.26	KMO and Bartlett`s test of Sphericity Q-26	164
5.27	KMO ranges Communalities Q-26	165
5.28	Total Variance Explained Q-26	166
5.29	Rotated Factor Loading Matrix Q-26	167
5.30	Naming of Group of statements Q-26	168
5.31	Distribution of Statements of Q-26	169
5.32	KMO and Bartlett`s test of Sphericity Q-28	171
5.33	KMO ranges Communalities- Q-28	172
5.34	Total Variance Explained- Q-28	173
5.35	Rotated Factor Loading Matrix- Q-28	174
5.36	Naming of Group of statements- Q-28	175
5.37	Distribution of Statements of Q-28	175
5.38	KMO and Bartlett`s test of Sphericity Q-42	178
5.39	KMO ranges Communalities- Q-42	179
5.40	Total Variance Explained- Q-42	180
5.41	Rotated Factor Loading Matrix- Q-42	181
5.42	Naming of Group of statements- Q-42	182
5.43	Distribution of Statements of Q-42	183
5.44	Test of Normality Q-42	185
5.45	Chi-Square Tests H01	194
5.46	Correlations between variable of `potential of renewable energy` and different state/area	195
5.47	Chi-Square Tests H02	195
5.48	Chi-Square Tests H03	196
5.49	Chi-Square Tests H04	196
5.50	Chi-Square Tests H05	197
5.51	correlation between variable of `available renewable energy potential` and `achievement of Government target`	197
5.52	Chi-Square Tests H06	198
5.53	Chi-Square Tests H07	201

5.54	Chi-Square Tests H08	202
5.55	Chi-Square Tests H09	202
5.56	Chi-Square Tests H010	203
5.57	correlations between variable of ` central level policy supports ` and ` state level policy supports `	203
5.58	Chi-Square Tests H011	204
5.59	Kruskal Wallis Test H012	206
5.60	Chi-Square Tests H013	208
5.61	correlations between two variable of `installation of renewable energy projects ` and ` opportunities for green employment generation	208
5.62	Chi-Square Tests H014	209
5.63	Correlation between potential of solar energy and opportunities for solar power project development	209
5.64	Chi-Square Tests H015	210
5.65	Correlation between potential of wind energy and opportunities for wind power project development	210
5.66	Chi-Square Tests H016	211
5.67	Chi-Square Tests H017	211
5.68	Chi-Square Tests H018	212
5.69	Chi-Square Tests H019	212
5.70	Chi-Square Tests H020	213
5.71	Chi-Square Tests H021	213
5.72	Chi-Square Tests H022	214
5.73	Chi-Square Tests H023	215
5.74	Chi-Square Tests H024	215
5.75	Chi-Square Tests H025	216
5.76	Chi-Square Tests H026	216
5.77	Chi-Square Tests H027	217
5.78	Chi-Square Tests H028	217
5.79	Chi-Square Tests H029	217
5.80	Chi-Square Tests H030	218
5.81	Chi-Square Tests H031	218
5.82	Chi-Square Tests H032	219

5.83	Chi-Square Tests H033	219
5.84	Correlations between two variables of ‘investment risk’ and ‘investment cost’ associated with renewable energy projects.	220
5.85	Chi-Square Tests H034	220
5.86	Chi-Square Tests H035	221
5.87	Chi-Square Tests H036	221
5.88	Kruskal Wallis Test H037	222
5.89	Kruskal Wallis Test H038	224
5.90	Chi-Square Tests H039	227
5.91	Chi-Square Tests H040	228
5.91	Chi-Square Tests H041	230
5.92	Chi-Square Tests H042	230
5.93	Chi-Square Tests H043	232
