

CONTENTS

Aknowledgement

Chapter 1 Introduction.....	1
1.1 Titanium Dioxide.....	4
1.1.1 Crystal Structure of Titanium Dioxide.....	5
1.1.2 Applications of Titanium Dioxide.....	7
1.2 Zirconium Dioxide.....	9
1.2.1 Crystal Structure of Zirconium Dioxide.....	10
1.2.2 Applications of Zirconium Dioxide.....	11
1.3 Mixed Oxides.....	12
1.4 Effect of Doping.....	13
 Chapter 2 Solar Cell.....	 20
2.1 Introduction.....	21
2.2 Generation of Solar Cell.....	21
2.2.1 First Generation Solar Cell.....	21
2.2.2 Second Genration Solar Cell.....	24
2.2.3 Third Generation Solar Cell.....	25
 Chapter 3 Characterization Techniques.....	 40
3.1 Introduction.....	41
3.2 X-Ray Diffraction (XRD).....	41
3.2.1 Fundamental Principle of X-Ray Diffraction.....	41
3.2.2 Instrumentation For X-Ray Diffraction.....	44
3.2.3 X-Ray Diffraction Pttern.....	45
3.3 UV-Visible Spectroscopy.....	49
3.3.1 Introduction.....	49
3.3.2 UV-Visible Spectrometer.....	51
3.3.3 Applications of UV-Visible Spectroscopy.....	55

Chapter 4 Titanium Dioxide.....	61
4.1 Introduction.....	62
4.2 Synthesis of Samples.....	62
4.3 Characterization.....	65
4.3.1 X-Ray Diffraction.....	65
4.3.2 UV- Visible Spectroscopy.....	72
4.4 Conclusion.....	78
Chapter 5 TiO₂-ZrO₂ Composites.....	80
5.1 Introduction of TiO ₂ -ZrO ₂ Composite.....	81
5.2 Synthesis of Samples.....	81
5.3 Characterization of Samples.....	82
5.3.1 X- Ray Diffaction.....	82
5.3.2 UV- Visible Spectrosocpy.....	94
5.4 Conclusion.....	101
Chapter 6 Metal Doped TiO₂-ZrO₂ Composites.....	103
6.1 Introduction of Metal Doped TiO ₂ -ZrO ₂ Composite.....	104
6.2 Synthesis of Samples.....	104
6.3 Characterization of Samples.....	105
6.3.1 X- Ray Diffaction.....	105
6.3.2 UV- Visible Spectrosocpy.....	123
6.4 Conclusion.....	133
Chapter 7 Co – doped TiO₂-ZrO₂ Composites.....	136
7.1 Introduction of Co – doped TiO ₂ -ZrO ₂ Composite.....	137
7.2 Synthesis of Samples.....	138
7.3 Characterization of Samples.....	138
7.3.1 X- Ray Diffaction.....	139
7.3.2 UV- Visible Spectrosocpy.....	150
7.4 Conclusion.....	157

Chapter 8 Fabrication of Dye Sensitized Solar Cell & Its Characterization...160

8.1 Introduction	161
8.2 Fabrication of Dye Sensitized Solar Cell.....	163
8.2.1 Preparation of the $\text{TiO}_2\text{-ZrO}_2$ electrode.....	163
8.2.2 Dye Fixation onto the $\text{TiO}_2\text{-ZrO}_2$ Film.....	163
8.2.3 Redox Electrolyte Preparation.....	164
8.2.4 Preparation of Counter Electrode.....	164
8.2.5 Assembling The Cell & Cell Performance.....	165
8.3 Photovoltaic Performance.....	169
8.3.1 Parameters To Be measured.....	169
8.3.2 Resistance.....	170
8.3.3 Recombination.....	172
8.4 Dye Sensitized Solar Cell Performance of $\text{TiO}_2\text{-ZrO}_2$ Nanocomposites.....	174
8.5 Dye Sensitized Solar Cell Performance of Metal doped $\text{TiO}_2\text{-ZrO}_2$ Nanocomposites.....	180
8.6 Dye Sensitized Solar Cell Performance of Co- doped $\text{TiO}_2\text{-ZrO}_2$ Nanocomposites.....	192
8.7 Conclusion.....	199

Chapter 9 Summary and Future Scope.....202

Summary.....	203
Future scope.....	205

List of Publication.....207
