The last eight-nine years of my life have been a great experience of self realization. I have explored unexplored avenues of myself and the effect of nanoparticle that can change properties and qualities of microheterogeneous system.

My journey at Chemical Engineering Department, Kala Bhavan, Vadodara has been a steep learning curve and has gone through many ups and downs. My Ph.D. journey is possible with constant safeguard, inspiration, back-up and above all right direction at right time by my supervisor Prof. Dr. R. A. Sengupta. The celebrations on even every tiny bit of success, and path-directing discussions with Dr. Sengupta are life long memory. In addition to the crucial technical learning, personal and professional development during my studies is unattainable without his bless guidance and help.

Prof. Dr. Bina Sengupta, Head of Chemical Engineering Department at Faculty of Technology and Engineering, The M S University of Baroda, Vadodara has always been a source of inspiration to me. Special thanks for all her motivation.

I would like to put it on record my sincere appreciation for teaching and particularly non-teaching staff of Chemical Engineering Department as well as the library staff of FTE, Vadodara for their bountiful support and providing me conducive research infrastructure and support.

My mentors, Dr. B. V. Kamath, Dr. Uday Trivedi, and Dr. Amir Ali Popat, whose prevailing encouragement and motivation during my PhD journey are acknowledged.

Without support of Prof. Rahul Mitra, Mr. Randhir Basu, Mr. Mani and Mr. Raj Namera of IIT, Kharagpur, studies of TEM , XRD and AFM at

Central Research Facilities, IIT, Kharagpur, West Bengal and Dr. S. P. Sahoo from Sun Pharma, Vadodara, studies of IR, SEM and XRD were very difficult. Their pains and favoring my request promptly are acknowledged.

Chemical Engineering Department of Shri K J Polytechnic, Bharuch as well Government Polytechnic, Gandhinagar had always been elemental in supporting me up at all times. Prof. N. S. Patel, Officiating Principal, Shri K J Polytechnic, Bharuch who had been immense motivator to my research work, deserves a special mention.

It is a matter of bliss for me to mention the encouragement by Prof. P. R. Dave, Joint Director, Office of the Commissioner Technical Education, Gujrat State, Gandhinagr along with prayers by my family members for my success.

I must not forget to mention Aparna Dhaneshwar, my wife who uses to provide ethical and expressive support. I sincerely respect her insight, endurance, help and upbeat mind-set that turned everything possible. Her inspiration and constant optimism was pivotal in achieving this success. My son Yogen's cheers pumped me up to keep moving till day. No words can express my obligation to them.

Thank you all.

Amit C Dhaneshwar
