

# List of Figures

2.1	Basic Element Shapes . . . . .	16
2.2	Common Quadratic Isoparametric Elements . . . . .	17
2.3	Pascal Triangle in Two Dimension . . . . .	20
2.4	Pascal Tetrahedron . . . . .	20
2.5	A Rectangular Element with Global Coordinate . . . . .	22
2.6	Tetrahedron Element (a) in Global Coordinates (b) in Natural (Volume) Coordinates . . . . .	27
3.1	Flow Chart for Short Circuit Analysis . . . . .	43
3.2	Reactor Model . . . . .	45
3.3	Stress with Transverse Loading. SF-1.5 . . . . .	49
3.4	Deformation with Transverse Loading. SF-1.5 . . . . .	50
3.5	Stress with Longitudinal Loading. SF-1.5 . . . . .	50
3.6	Deformation with Longitudinal Loading. SF-1.5 . . . . .	51
3.7	Stress with Transverse Loading. SF-2 . . . . .	52
3.8	Deformation with Transverse Loading. SF-2 . . . . .	53
3.9	Stress with Longitudinal Loading.SF-2 . . . . .	53

3.10	Deformation with Longitudinal Loading.SF-2 . . . . .	54
3.11	Elementary Core Model . . . . .	56
3.12	The Flow Chart for Thermal Analysis of Transformer . . . . .	60
3.13	Transformer Model . . . . .	67
3.14	Coil Geometry A . . . . .	68
3.15	Coil Geometry B . . . . .	70
3.16	Temperature Distribution in Primary Winding . . . . .	71
3.17	Temperature Distribution in Secondary Winding . . . . .	71
3.18	Switching In Transients . . . . .	76
3.19	1.5 kVA Single Phase Transformer . . . . .	83
3.20	280 kVAR Air Core Reactor . . . . .	85
