

Contents

1. INTRODUCTION	1
1.1 General	1
1.2 Factor of power losses	1
1.3 Level of Power losses	1
1.4 Reasons for high power losses	2
1.5 Reasons for high technical losses	2
1.6 Reasons for commercial losses	2
1.7 Power losses in restructured SEBs	3
1.8 Regulatory concerns	3
1.9 Barriers in private sector participation	3
1.10 Unmetered supply	4
1.11 Objectives	5
1.12 Significant Benefits	6
1.13 Thesis outline	6
2. CONSUMERS LOAD PROFILE WITH DATA MINING	8
2.1 Profile Studies	8
2.2 Load Profile Approaches	8
2.3 Load Profiles and Data Mining Techniques	9
2.3.1 Fuzzy Clustering	9
2.3.2 Hierarchical Clustering	10
2.3.3 K-Means Clustering	10
2.3.4 Self-Organizing Maps Clustering	10
2.4 Electricity Losses	11
2.5 Fraud Detection	12
2.6 Fraud Detection Techniques	13
2.7 Conclusion	14
3. DATA MINING TECHNIQUES FOR UNMETERED POWER LOSSES ANALYSIS	16
3.1 Introduction	17
3.2 Feature Selection	19
3.2.1 Wrapper model	19
3.2.2 Filter model	19
3.2.3 Hybrid model	19
3.2.4 Best-First Search	19
3.2.5 Exhaustive Search	19
3.2.6 Genetic Search	19
3.2.7 Greedy-stepwise	19
3.2.8 Random Search	19

3.2.9	Ranker	19
3.3	Classification	20
3.3.1	Decision Tree	20
3.3.2	Naïve Bayes	20
3.3.3	Back Propagation Neural Network	20
3.3.4	Support Vector Machine	20
3.4	Prediction	21
3.5	Conclusion	22
4.	UNMETERED POWER LOSSES ANALYSIS FRAMEWORK	23
4.1	Introduction	23
4.2	The proposed unmetered power losses analysis framework	23
4.3	Data Pre processing	25
4.3.1	Data Cleaning	25
4.3.2	Data Transformation	25
4.3.3	Data Integration	25
4.3.4	Data normalization	28
4.4	Detection	30
4.5	Customer Load Analysis	31
4.6	Weather Factor	32
4.7	Key Algorithms for Customer Behaviour Classification and Prediction	32
4.7.1	Extreme Learning Machine	32
4.7.2	Online Sequential Extreme Learning Machine	34
4.7.3	Support Vector Machine	35
4.8	Conclusion	37
5.	CLASSIFICATION AND PREDICTION OF ELECTRICITY CUSTOMERBEHAVIOUR	38
5.1	Introduction	38
5.2	Task Definition	38
5.3	Customer Behaviour Classification	40
5.3.1	ELM	40
5.3.2	OS – ELM	42
5.3.3	SVM	44
5.4	Conclusion	45
6.	CUSTOMERS' DATA PREDICTION ANALYSIS	46
6.1	Introduction	46
6.2	Definition of Task	46
6.3	Prediction Results	48
6.3.1	Case 1 – Modelling a Customer with Normal Behaviour	48
6.3.2	Case 2 – Modelling a Customer with mixed normal and abnormal behaviour	50
6.3.3	Case 3 – Modelling a Customer with abnormal behaviour	54
6.4	Analysis of Customer Behaviour Predictions	55
6.5	Conclusions	57
