

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
1.1	The benefits of Friction Stir Welding processes	4
2.1	Summary of tool materials for friction stir welding	19
2.2	Tools designed at TWI	28
2.3	Representative Thermal Imaging System Applications	73
3.1	Chemical compositions of the materials selected	76
3.2	Properties of AA 6101 and 6082 Al alloy	76
3.3	Composition of AA 6101 T6 Alloy	77
3.4	Composition of AA 6082 T6 Alloy	77
3.5	Classification of Tool Steels	94
3.6	Composition of H13 tool steel	96
3.7	Different types of shoulder – pin combinations	97
3.8	Welding parameters for CFSW of AA6101 T6 with hexagonal pin tool	107
3.9	Welding parameters for CFSW of AA6101 T6 using square pin tool	108
3.10	Parameters for CFSW of AA 6101 T6 Al alloy	109
3.11	Parameters for CFSW of AA 6082 T6 Al alloy	110
3.12	Parameters for BFSW of AA 6082 T6 Al alloy with square pin concave-convex shoulder tool	111
3.13	Parameters for BFSW of AA 6082 T6 Al alloy with square pin convex shoulder tool	112
3.14	Dimension of Tensile specimen as per ASTM E8 standard	113
3.15	Test parameters for Face bend test	114
3.16	Data code for corrosion studies	124
4.1	Tensile test result of samples welded by CFSW	136
4.2	Tensile test result of samples welded by CFSW	137

4.3	Result for Face Bend Test	138
4.4	Result for Face Bend Test	139
4.5	Brinell hardness test	140
to		to
4.17		152
4.18	Result for Electrical conductivity measurement	214
4.19	Corrosion analysis of CFSW joint using hexagonal pin tool	218
to		to
4.30		227
4.31	Temperature distribution zones for BFSW and CFSW weld	235
