

## ACKNOWLEDGEMENT

I feel privileged to express my deep sense of appreciation and gratitude my guide Dr. S. K. Dutta, Ex. Professor , Metallurgical and Materials Engineering Department. Faculty of Technology and Engineering, M. S. University of Baroda, Vadodara for suggesting the topic of research, invaluable guidance and ever-helping nature towards the successful completion of this research work. His ingenuity, knowledge and keen interest in the subject proved to be a constant source of inspiration for me throughout the entire period of this research work.

I take this opportunity to thank Prof. (Dr.) Chauhan, Head and Prof. Dr. S. N. Soman, Former Head of Metallurgical and Materials Engineering Department, Faculty of Technology and Engineering for extending me the departmental laboratory facilities and constant encouragement throughout the research work. I also thank, Dean, Faculty of Technology and Engineering for extending me the departmental and institutional facilities for research.

I am thankful to the management of Jindal Steel Works in general and Dr. Rameshwar Sah, Dy. Managing Director (Steel) in particular for providing the raw material for this study. I am also thankful to Shri Akhilesh Kumar Mishra, General Manager, Engineering Shop and Foundary, Vishakhapattanam Steel Plant, Vishakhapattanam, for generously providing the raw material for the study. I am extremely thankful to Mr. Gupta, ESSAR Steel for his generous help by way of XRF testing for my experimental work. I also thank Mr. Ankit Patel, Managing Director, Metal heat treat, for his generous help doing the spectroscopic analysis of metal samples.

.

I am indebted to all the faculty members of Metallurgical and Materials Engineering Department for their co-operation , especially to , Prof. (Dr.) P. B. Joshi, Prof. (Dr.) S. N. Soman, Prof. (Dr.) Bharat Chauhan, Prof. (Dr.) Mrs. Bharati Rehani, Dr. (Mrs.) Vandana Rao , Dr. (Mr.) Sunil Kahar, Prof. Dharmesh Lodhari, Prof. Hemant Panchal, Shri Yakshil Chokshi for their help. I am thankful to all the non-teaching staff of Metallurgical and Materials Engineering Department for their direct and indirect help in course of my research work. I further extend my thanks in particular to Shri Rajesh R. Pepavanshi, Shri Dharmesh Solanki, , Shri Ishwar Bhai for their assistance during various stages of experimental work.

I also express my sincere thanks to the management of G.H. Patel College of Engineering and Technology, Vallabh Vidyanagar for permitting me to pursue my Ph.D. work as an external candidate and allowing me to carry out experimental work at M.S. University of Baroda My

sincere thanks are due to my colleagues of G.H. Patel College of Engineering and Technology, Vallabh Vidyanagar For their help, encouragement and moral support. I will be failing in my duty if I do not acknowledge the help rendered to me by Prof. (Dr.) Darshak A. Desai, Prof. (Dr.) Mukesh Bulsara, Dr. Hemant R. Thakkar and Dr. Krupal Parikh of G.H. Patel College of Engineering and Technology, Vallabh Vidyanagar .

The goodwill, inspiration and help extended by many friends and relatives whose names are not included here were a great asset in completing the work. Last but not the least I must express my sincere thanks to my (Late) father-in-Law and my parents for their blessings and my husband Sanjeev and daughter Surabhi without whose moral support, understanding and co-operation this work would not have been possible.

G.H. Patel College of Engineering and Technology,  
Vallabh Vidyanagar, Anand
